## About the Owner

Hopkinton Home Care is a locally owned and operated company. Our founder, Bill Marr, has 30+ years of experience in the home care, assisted living, and insurance industries. For 17 years, Bill worked at Golden Pond, the first free-standing assisted living facility in Massachusetts.

Bill joined Golden Pond in their fourth year of existence and started in a management role with home care businesses that they owned and operated. In the 1990's there were both Medicare certified and private duty agencies that provided service to the residents of Golden Pond as well as the surrounding communities.

In time, Bill recommended that the Medicare agency be sold and the private duty agency be folded back into the operations of Golden Pond due to regulatory changes in Massachusetts.

In 2001, with those changes complete, Bill became the Executive Director of Golden Pond where he served the residents, their families and the staff for 13 years. Prior to his time at Golden Pond, Bill worked in operations for the VNA of Boston for 9 years who delivered home care services to thousands of individuals all over eastern Massachusetts. These experiences allowed Bill to gain experience in both the non-profit and for profit sectors and to understand the benefits and limitations of each operating structure.

Hopkinton Home Care was founded by Bill to help people by maximizing the strengths and experience he has gained during his time in both home care and senior care.
