

# A Winning Formula for Our Success and Continued Growth!

## Higher Enrollment Frees Up More Fundraising Dollars

One way to ensure 80 to 100 percent of our future fundraising funds go to our capital building project is to keep our enrollment numbers up. The higher the student enrollment, the more fundraising dollars can be allocated to our capital building project!

It's not too early to start thinking about SA enrollment for the 2017-2018 school year! As parents of St. Anthony students please continue to promote and advertise our great school to your family, friends and neighbors! **Parents, Staff and Board Members are our best form of advertisement, and with your help we will continue to grow our enrollment.**

*Even with our current classroom limitations there is still room in some grades. Please contact the office to see which grades have room for more students.*

## Volunteerism

Private schools could not survive or function without the help of volunteers! In many ways a strong group of volunteers it is the secret ingredient toward winning and succeeding! Volunteers are needed at many levels; in the classroom, in the office, helping serve lunch, helping with the facilities when needed, for field trips, sports league activities and to help and support the very important fundraising activities; gala, golf tournament, raffles etc...

A volunteer can be a student parent, a grandparent, a church community friend, a St. Anthony Alumni, or any St. Anthony supporter or friend who would like to help our cause. To achieve our goals and dreams, we need their help!

## Fundraising Fuels Our Growth and Needs

As our enrollment grows, more and more of our fundraising dollars are freed up toward improvements and support of our needs. These funds are critical to our continued growth and provide the much needed funding to help achieve our goals and dreams.

Volunteers play a very important part toward any successful fundraiser event; private schools have no other means of financial support other than enrollment and fundraising! Once student enrollment has reached the level required to cover the day to day expenses, fundraising dollars affords us the opportunity to continue to improve our learning tools and facilities.

# St. Anthony 2017 Spring Gala Fundraiser News

## Our next Major Fundraiser is the May 13<sup>th</sup> Spring Gala and Dinner

We need more volunteers to help with the gala planning, acquiring gift card and item donations, sponsorships, and the gala event activities; set up, decorations, working the event and clean up.

This year we would like to do a Wine Pull as one of our fundraising activities at the gala. We would like to target at least 30 to 50 bottles of donated wine with a minimum retail value of \$20 a bottle to have in our wine pull. Of course, we would like some higher priced bottles too... Participants will purchase a “pull” for \$20 and will walk away with a bottle of the same value or greater!

Please ask your local wine merchants, bars or your favorite restaurants if they would be willing to donate/sponsor our wine pull event. We will provide advertisement at the event for all of those businesses who sponsor! All types of wine are accepted .... Red, White or Sparkling.

Please help us make this year’s Gala a great success and fun event!
