**POLICE LINE DO NOT CROSS**

### POST CREDITS AND CLE'S:

A subscription-based resource that includes webinars of Lethal Weapon presentations by Prof. John Kwasnoski, explaining collision investigation and reconstruction in "plain speak". An invaluable resource to help prepare for trial. This is not a structured course or program, but can be used as needed, like any other library.

All of the webinars in the Legal Sciences Online Digital Library have been given at venues where POST credit was available to law enforcement and/or CLE's were available to prosecutors (check in your state). The online Digital Library is an economical alternative to sending officers away for training, and the presentations are conveniently broken down into 1/3 hr (20-minute) "Chapters".

-  Unlimited viewing for subscribers
-  Nominal one-year subscription fee
-  Updated and expanded each quarter
-  Downloadable pdf Technical Documents
