What is Lakota LEADS?

Lakota's Enrichment and Academic Development of Students (LEADS) was established by a group of parents in the Lakota School District whose children were identified as gifted. While LEADS is primarily aimed at the parents of gifted children, all families in who live in Lakota are welcome.

LEADS is aimed at helping parents stay informed and become better advocates by sharing with members more about the District's services and enrichment opportunities for gifted students. LEADS goal is to help families have the necessary resources to help children grow to their full potential.

Our Mission

- To partner with the Lakota teachers, administration, and the School Board, to insure Lakota students receive every learning opportunity available.
- To identify, provide, and/or sponsor enriching academic and social opportunities for the gifted students of the Lakota School District.
- To create a venue for communication and interaction among the parents of Lakota's gifted students.
