Week 1 - (4 Day Camp) - June 25-28

AM - Make an Impression!

Stamping, piercing, printing...you name it, we'll try it! We'll take ordinary forms and make them extraordinary with unique surface treatments.

PM - Watercolor Camp - Nature Themed

Learn to paint objects of nature with local artist, Amanda Emig.

Week 2 - (4 Day Camp) - July 2-5

AM - Pinched Pottery

Explore the handbuilding technique of pinching. Learn to control the movement of clay while creating a variety of pinched forms. Pinch your way to perfect pots!

PM - Acrylic Landscapes

Landscapes including trees, barns, flowers and more. Step by step, and add your own flare! Taught by local artist, Amanda Emig.

Week 3 - (4 Day Camp) - July 9-12

AM - Beginning Wheel

Learn the basics of throwing on the potter's wheel. Center, Open, Pull & Shape your way to new pottery forms.

PM - Coil Me Crazy!

Coiling is a handbuilding technique that allows for many possibilities. You can create work of all shapes and sizes, but it allows a beginner to work on an impressive scale right off the bat!

Week 4 - (4 Day Camp) - July 16-19

AM - Heros & Handbuilding

We'll take ancient amphoras (vases) and give them a present day twist by incorporating our favorite heros.

PM - Wheel Throwing Boot Camp

Designed for those that enjoy a challenge and want to become successful on the wheel. The focus will be on the techniques of throwing

Week 5 - (4 Day Camp) - July 23-26

AM - Adornments in Clay

Pendants, bracelets, earrings...and extra special ideas to bring out the beauty in the everyday items! Turn ordinary objects into EXTRA-ordinary!

PM - Under the Sea

Barnacles, sharks, oysters and more will be used to help inform your work! Use your memories, and your imaginations, to create new works inspired by the sea!

Week 6 - (4 Day Camp) - July 30 - August 2

AM - Super Bowls!

Using the potter's wheel, students will learn the basics of how to throw & trim bowls. Handbuilding options to create bowls will also be introduced.

PM - Garden Lovers -

Learn coiling, pinching, and slab-building techniques while creating flower pots, garden gnomes, and decorative crop-row markers.
