LIFETIME LIMITED TRANSFERABLE WARRANTY

Tilt Latches have an updated look. Gives the window smoother operation, and better performance on structural testing.

Groove in bottom of sash for vinyl "fin" (just inside inner sill dam) to lock into, creating a secure fit.

Higher sill dam (1 3/8") to help increase higher structural numbers. Beveled edge creates a streamlined, clean finish.

Masonite®

Masonite Interior Doors

Molded Panel Doors from Masonite are more durable, and resist warping, shrinking, and cracking better than solid wood doors. All doors come primed for easy finishing in a variety of widths and heights.

Best of all, no old growth timber is harvested solely for the production of Molded Panel Doors from Masonite. By-product wood chips and timber from well managed forests are used by facilities with a commitment to environmental excellence in every step of the door manufacturing process.
