

*Handcrafted
Chocolate Truffles
Infused with Natural Energy*

About Us

At Zippy Bites we take exhaustive steps in auditing our manufacturing process, ingredient selection, batch testing and final product quality. These functions are not delegated but performed by the company's owners. This is your assurance that every Zippy Bite will be of the highest quality – each and every time you enjoy one.

Our recipe was not created by a food scientist, but rather a part-time graduate student and chocolate enthusiast who was looking for a way to rebound for night classes after a full day of work.

After two years of learning the art and science of chocolatiering, careful work, and constant experimentation to find the perfect balance of chocolate and energy, we have are proud to present you with Zippy Bites.

Our Flavors

Mint Truffle

Raspberry Truffle

Combo Package

Our Zippy Bites Sampler Pack is an efficient way to try both our Raspberry and Mint flavors! Two Mint 2packs and two Raspberry 2packs are included for a total of 8 Zippy Bites. Zippy Bites are delicious chocolate truffles infused with guarana, naturally extracted caffeine, amino acids, and B-Vitamins.

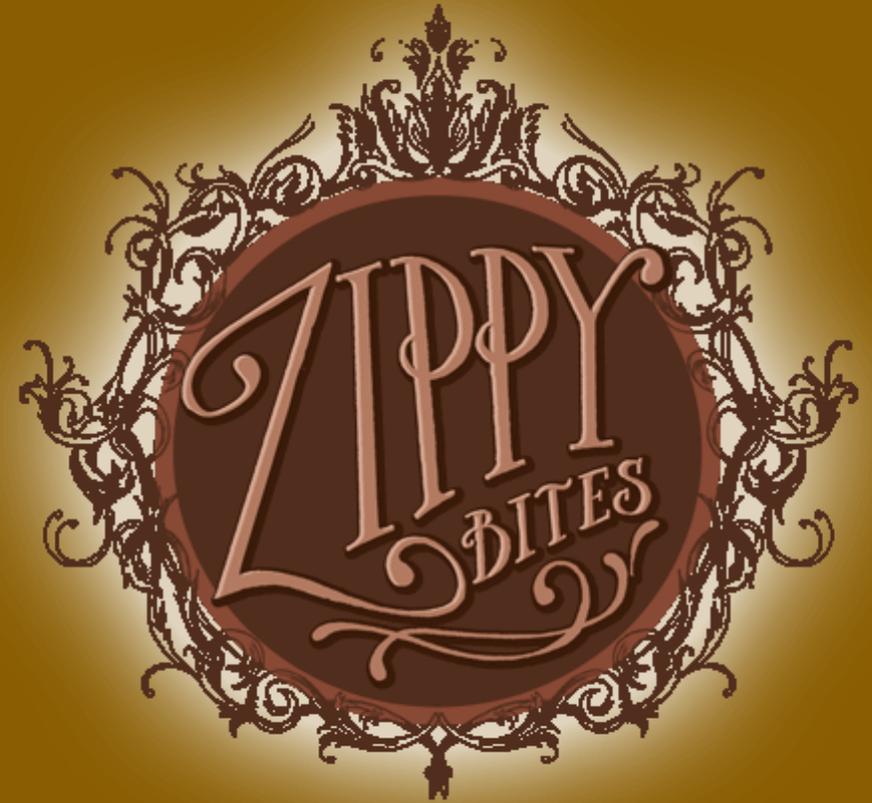

Zippy Bites are the perfect way to energize in the morning, afternoon or evening. Try them as a post-lunch treat to help you power through the rest of your day or a post-dinner treat to help you power through the night. Zippy Bites are a great afternoon snack to help you feel energized to hit the gym after work!

Why fill up with mediocre tasting energy drinks packed with artificial ingredients? We think our artisanal, organic chocolate truffles are a superior way to get your energy! AND satisfy your sweet-tooth at the same time!

Energy Bites

Zippy Bites contain a unique, natural energy blend of caffeine, amino acids, and vitamins enrobed in organic, free trade chocolate. The result a great tasting, bite-sized energy boost perfect for fitness enthusiasts, busy professionals, conscientious students and today's on-the-go parents. What's more, Zippy Bites are a healthier energy option.
