Mayor's Report

Robert Fiala
Mayor/Safety Director

Three years ago, we embarked on a creative economic development initiative to establish our Historic Downtown as an Arts, Entertainment, and Cultural District. This approach to economic growth is not new, there are many cities throughout the country that have established arts districts, and the benefits are evident and impressive. In Ohio, the total value of the arts in 2019 was over \$19.6 billion. The Arts ranked fourth behind retail, construction, and transportation in economic value to the state. As we adjust to a post-pandemic world, we are witnessing a change in shopping, dining, and entertainment. They may be morphing into a shared experience; a day of shopping becomes dinner and ends with listening to music in a local pub. If this is true, arts, entertainment, and cultural activities could support a day-long experience and our

Make the Market Your Saturday Habit!

By Maureen Gregory

Did you remember to attend the Willoughby Outdoor Market on Saturday? It was a beautiful day to get re-acquainted with your favorite growers, makers, bakers and crafters. Happy shoppers arrived in droves, causing several vendors to report a sell-out well before closing time.

One way to avoid the disappointment of a "sold out" favorite produce item is to purchase a CSA. You may not

be familiar with this method of supporting a local farmer. CSA stands for Community Supported Agriculture and refers to a pre-paid contract with a farmer for a weekly share of produce. The length of the contract can vary but is usually for a growing season. The customer chooses a quantity ranging from individual to family size, priced accordingly. In turn, they receive a bag of fresh greens, fruits and vegetables each week, to be picked up at the Willoughby Outdoor Market. There may

occasionally be additional local products like maple syrup, honey, eggs, or pastries included in your weekly bag. The CSA contract benefits the farmer because he receives funds early in the season, which helps with cash flow. The customer benefits because they develop a relationship with the farmer. When certain crops are scarce due to the season, unfavorable weather or high demand, the farmer makes sure the CSA customers get served first. If

No Job Too Big or Too Small for Handyman On Call!

Plumbing, electrical and emergency repairs are the specialties of Handyman on Call. No job is too small or too large. Home improvement is part of every homeowner's life and Handyman on Call can make getting the job done easier.

Our retired tradesmen are available to provide expertise, quality and dependability at an affordable price. All of our

economic development tool. Over the past years, this organization has grown, developed an excellent board and became a non-profit organization. They have been responsible for or a part of almost every art activity in Willoughby. This includes a collaboration with the Merchants Association on the Second Saturday Art Walks, the drafting and issuance of a call for artists for our soon-to-be installed "Bridge" sculpture located at the intersection of Erie Street and Mentor Avenue, and support in developing our recently adopted

tradesmen have at least 25 years experience in home building and/or home improvements.

arts code. Their work is a critical step in establishing Willoughby as an experience. We are also forging a stronger relationship with the Fine Arts Association, a recognized arts programming and education leader. We hope that our recently awarded grant to build an amphitheater at Todd Field will provide a foundation for joint programming with FAA. The gazebo concerts and the Chamber of Commerce ArtsFest will continue to support the mission. Another goal is to increase programming and activities at Osborne Park. This summer's sunset concerts are the beginning of this effort. These concerts will

bookend our traditional gazebos concerts, and the audience will enjoy great music and watch the sunset over Lake Erie. We are also seeking arts-related merchants and professionals to locate their business in our city. These may include custom clothiers, jewelry designers, graphic designers, among others. Our hope is this rich mix of professionals will enhance the vitality of Willoughby and reinforce its reputation as an arts experience.

We hope everyone is having a great spring, and we look forward to seeing our residents in person soon.

HEALTHY EATING TIPS FOR SENIORS

As people age, their diets may need to change. The American Dietetic Association offers these suggestions:

Prepare meals rich in these nutrients. These include:

• **Omega 3 fatty acids**

The acids have been proven to reduce inflammation, which can cause heart disease, cancer and arthritis. They can be found in many different types of fish and in flaxseed oil.

• **Calcium and Vitamin D**

The need for calcium and vitamin D increases as people age, primarily to preserve bone health and lower blood pressure. Adults over the age of 50 need at least 1200 milligrams per day of the nutrient – equal to about four cups of milk per day.

Limit sodium content

One of the most important ways to reduce hypertension is to prepare foods with low sodium. This means avoiding frozen, processed or restaurant foods which are often extremely high in sodium. Fruits and vegetables have the lowest sodium content.

Hydrate

As people age, they do not get thirsty very often, even though their bodies still need the same amount of liquids. This is why

it's important to drink plenty of fluids.

Incorporate changes gradually

Older people are usually skeptical of change. That's why it's best to make small changes gradually.

Sometimes a little outside help can make all the difference in the world. Give Taylor Made Home Care a call and let's talk about it!

Bankruptcy 101:

You are Not Your Credit Score

Question: What is your credit score and why do the lenders make such a big deal about it? How will it affect me in these times?

Answer: Back in the 1950's a company called the Fair Isaac Corp. (FICO) developed a formula which was marketed as a way for lenders to realistically evaluate their risk with regard to lending to a specific person. FICO assigned mathematical quantities to patterns of behavior (like how often one pays late, whether they have unsatisfied legal judgments, etc.) and computes those quantities

into a numerical risk factor which is known as our "credit rating." FICO sells people's credit ratings to lenders based on their FICO formula which is a trade secret and legally protected.

There are other companies like FICO which have come up with their own secret form of credit rating which they also sell to credit reporting agencies such as Equifax, Transunion and TRW. In my mind, these companies secrecy causes me to question their integrity and the efficacy of their formulas. FICO should willingly disclose the science behind their mathematical formula so it can be challenged and discussed. It only seems fair that a rating factor which affects so many people's

lives, whether it be for getting credit, a job, security clearance or the trust of another person, should be open to investigation. How do we really know its not complete voodoo?

There is a widely held belief that FICO and the entire individual credit rating system was developed by the elite to keep the middle class in their place. "Their place" is presumably in a constant state of fear over their financial rating willing to pay the banks any interest rate or penalty without question.

In our bankruptcy practice, we spend a large portion of our time helping people get back on financial track. I see people

regularly who enter my office in a state of hopelessness and are healthy, happy, laughing and spirited six months down the line. Bankruptcy stays on your credit for ten years. But my response to that is "So what?" Anybody who really wants to get credit and buy another house can do it in three years or better. Even with a very low credit rating. They will have to be creative nowadays. But that is a topic for a different day. So the focus should not be on your credit rating but on your ability to pay back a specific amount of a loan within a specific period of time. I tell our bankruptcy clients: "yes, try to get a loan you can afford as soon as possible

and pay it back early. This is the beginning of your life of financial responsibility."

The "fresh start" that one can receive, often times, through bankruptcy is extremely valuable in terms of peace of mind and freedom from stress. Do not put yourself or your family through unnecessary mental hardship. If you think bankruptcy can help, there is only one way to find out. Schedule a free consultation. Often times, we can do the consultation over the phone. The bottom line is that a bankruptcy will not make most people's credit rating much worse than it was already. And it is a new start for your credit rating also.

Medicare Myths You Need to Know

Many people have little experience with Medicare until the time comes for them to enroll. Many have some mistaken beliefs about the coverage it provides. Here are a few of the most common misconceptions.

Myth #1: Medicare covers 100% of your medical expenses

Original Medicare covers only a portion of your medical costs. Medicare coverage amounts to only about 80% of your Part B expenses. Prescription coverage is not included, and you will be responsible for premiums, deductibles, coinsurance, and copayments. In addition, Original Medicare does not set an annual out-of-pocket maximum on your share of covered medical expenses, so a major illness will mean major expenses for you. Medicare Supplements and Medicare Advantage Plans are two different types of coverage that can help keep your out-of-pocket costs in check.

Myth #2: All types of medical care are covered by Original

Medicare

Unfortunately, there are some big gaps in coverage provided by Original Medicare. In most cases, Original Medicare does not cover vision, hearing or dental costs. This is one of the reasons why many people choose Medicare Advantage plans. Most Advantage plans include coverage for prescriptions, vision, dental, hearing, and other services not covered by Original Medicare.

Myth #3: It is best to get the same coverage as your spouse

Not always true. Unlike health insurance provided by an employer, Medicare does not offer family coverage. Each person must apply Medicare on their own. Additionally, just because your spouse is satisfied with their coverage does not mean it is the right type of coverage for you. You need to consider your medical and prescription needs as well as your financial situation before making a choice.

Myth # 4: You are automatically enrolled in

Medicare

You do not automatically receive Original Medicare (Part A and B) once you become eligible. If you are not receiving Social Security retirement benefits or Railroad Retirement benefits, you will need to enroll through the Social Security office.

If you would like to learn more about Medicare, please contact me. I regularly present a class,

Getting Started with Medicare, at libraries and community centers where we cover all the basics of Medicare. You can also watch a video of Getting Started with Medicare available at www.mutskoinsurance.com.

DESTINATION BACKYARD...

Living in Northeast Ohio, we tend to neglect our outdoor living spaces. Then late May rolls around and the sun shines, temperatures rise and we emerge from our homes to find an outdoor space that's not so inviting. American Home and Energy Products in Painesville, has everything to create the outdoor living area you've been dreaming of all winter long.

Talking about all that American Home and Energy Products offers would take much more space than we have here. That's why you're encouraged to come out to the store, take a stroll around the grounds and discover for yourself what they can help you do with your home.

"When I opened the store in 1999, we mainly focused on patio pavers, natural stone, ponds and waterfalls," says owner Chris Bedrick. "Today we have indoor and outdoor fireplaces, patios, fire pits and retaining walls and outdoor kitchens including the best grills, smokers and kitchen accessories. We also have structures to create outdoor rooms and the very best outdoor furniture. All of these project ideas can be installed by most homeowners or we can assist you with finding a reputable installer."

With experience in landscaping and home construction, Chris is knowledgeable in all areas of the home. He makes it his mission to stay current on all of the latest trends.

"I travel to seminars all over the country so I know what's coming," says Chris. "My staff and I are extremely knowledgeable and ready to guide you through your project—no matter how big or small. And if it's too much for you, we'll recommend someone who can help. We deal with many contractors throughout Northeast Ohio who rely on us for quality products and knowledgeable service."

Walking through the shop and surrounding grounds at American Home and Energy Products is an experience. Several unique and elegant outdoor displays showcase

some of the exciting home improvements that can be made to increase the value of your home and upgrade living spaces for your family to enjoy for years to come.

Additions like outdoor cooking areas, fire pits, water gardens, pondless water features, decorative stones and lighting can take your backyard to a whole new level.

"No backyard is complete without a water feature," says Chris. "And it doesn't have to be elaborate. You can do a pondless feature where the water disappears into a basin underground, add some decorative stones, and even add a koi pond. It adds a new dimension to the home and creates a relaxing vibe that is very popular."

American Home and Energy Products is a destination spot for outdoor living inspiration. And to be really inspired stop by the store to see over 2000 square feet of displays and ten different departments of product.

"We want your outdoor areas to be a place to enjoy with family and friends," says Chris. "Why not have your most relaxing destination be your own backyard?"

American Home and Energy Products is located at 1270 Mentor Avenue in Painesville. Hours are: Monday-Friday 9:00 a.m. to 5:30 p.m., Saturday- 9:00 a.m. to 4:00 p.m.; closed on Sunday. For more information, call 440-358-5858, or visit American-Home.com.

Cosmetic Laser Medi-Spa & More has been providing laser and other cosmetic services for over 17 years. Our staff of Medical Directors, Cosmetic Therapists, and Nurses are medical professionals with years of experience in Botox, Juvederm, laser hair removal, and mole and spider vein removal.

Botox and it is a safe cosmetic procedure when administered by a well-trained doctor to an appropriate candidate. Botox can reduce or eliminate wrinkles without surgery. Our Estheticians are experienced in facial peels to address concerns like fine wrinkles,

Continued on page 11

Our Estheticians and Massage Therapists can also help you relax and rejuvenate your skin, body, and mood! Our goal is to offer services affordable to the average person because we all deserve to invest in ourselves but rarely make it a priority. Whether you're looking for an outpatient cosmetic procedure or a self-care pick me up, we've got the service for you!

We pride ourselves in our deep knowledge of skin, lasers, and how energy all interact. Laser and electrolysis are our primary focus as Cosmetic Therapists are the expert health care professional in permanent hair removal. We also guide you through the expectations and recommend which treatments or combination of that would provide your desired outcome. Lasers can be used on dark hair to reduce or remove growth on large surface areas. Laser hair removal typically requires 8-14 treatments at 4-8 week intervals. Electrolysis works on all hair types and can clean up any hairs the laser is not able to do such as white, grey or blonde hairs. Since this treats one hair at a time it typically requires regular visits for 1-2 years. We are a LGBT friendly business and come highly recommended from the Transgender community and Dr. Cecile Ferrando's team at the Cleveland Clinic Transgender Surgery & Medicine program.

Mentor Window Earns Yet Another Angie's List Super Service Award - 9 Years Straight!

Mentor Window has earned the home improvement industry's coveted Angie's List Super Service Award for the 9th year in a row. This award reflects exemplary years of service provided to customers

throughout Northeast Ohio, along with honest, fair prices.

Steve Douglas the owner of Mentor Window was asked about how they continue having such success in the home improvement industry. "We have crews that have been with us for decades, and we are very particular about the installers we hire. We won't just hire anyone to catch up if we are backed up a bit, quality is at the top of our list when it comes to workmanship. When it comes to pricing, we are straight forward with people, they don't want to

hear any buy 1 get 1 free nonsense. They want a fair, honest price up front without all the gimmicks you see out there in advertising. We treat each and every one of our customers like family."

"Only about 5% of the Home Improvement companies in Northeast Ohio have performed consistently well enough to earn our Super Service Award," said Angie (founder of Angie's List.) "It's a really high standard."

Angie's List Super Service Award 2020 winners have met strict eligibility requirements,

which include an "A" rating in overall grade, recent grade, and review grade period; the company must be in good standing with Angie's List, pass a background check and abide by Angie's List operational guidelines.

Service company ratings are updated daily on Angie's List. Companies are graded on an A to F scale in areas ranging from price to professionalism to punctuality.

The Fine Arts Association (FAA) is proud to host the premier screenings of Modern Warrior Live: the story and sound of a combat veteran's journey co-created by musician Dominick Farinacci and military veteran Jaymes Polling June 11-13, 2021.

There are five in-person screenings June 11th at 7:30 pm, June 12th and June 13th at 2:00 pm and 7:30 pm at The Fine Arts Association's Corning

Auditorium (social distancing is aligned to state health mandates). The film is FREE to veterans and \$15 for general admission. Tickets must be purchased in advance by calling 440-951-7500.

"Modern Warrior reminds veterans they are not victims and that they can use their experiences to grow and make significant contributions to society," added Anthony Principi, Secretary of Veterans

Affairs (2001 - 2005) and Vietnam Combat Veteran

Because of a generous National Endowment of the Arts award of \$10,000, FAA is presenting these 5 in-person screenings along with creating arts and music programs specifically designed by FAA's Creative Arts Therapies department along with input from local veterans and veterans organizations. These programs will be tailored to fit the needs

and interests of veterans, active military and military families.

The film is not only for veterans, active military, and their families. It also is for health professionals, caregivers, high school students, college students and faculty, and others interested in the health and well-being of our veteran populations. The purpose of the project is to encourage dialogue and broaden understanding of the challenges faced by veterans which helps to de-stigmatize veterans as victims by focusing on shared human experiences, providing hope and a deeper understanding across communities. After each screening, guests are welcome to stay to participate in 30-45 min. of dialogue with the co-producers.

Veteran Polling explains, "With the best of intentions, well-meaning individuals and organizations have crafted a dark narrative around veteran mental health. For those experiencing it, the recognition of post-traumatic stress can often feel insurmountable. Through entertainment, Modern Warrior LIVE provides an alternative

viewpoint. If we agree there is an opportunity for growth in adversity, then we have an obligation to ourselves and our loved ones to do everything in our power to define a new path and find what it means to be forged in combat."

Veteran support services and other community service agencies are encouraged to reach out to FAA (see contact information below) to host a resource table in the FAA gallery during and after the screenings. This is a great opportunity for veterans, services, mental health agencies, health centers, and other community agencies to share important resources and educational materials.

This project is supported in part by an award from the National Endowment for the Arts. Also sponsored by Wickliffe Forever Foundation, Carnegie Investment Council, and FAA board member, Roy Smith.
