

Specializing in Disaster Recovery and Business Continuity Preparedness
from Boutique Recovery Strategies to Enterprise-wide Solutions

Disaster Recovery Preparedness

Providers today deliver solid technical solutions; yet face challenges gathering business requirements to better understand and fully meet a customer's Disaster Recovery and Business Continuity (BC/DR) needs.

Disaster Readiness Solutions, by partnering with industry-leading solution providers, delivers the program planning and requirements gathering expertise to ensure the fullest in customer satisfaction.

Disaster Recovery (DR) Delivery Challenges

- In a disaster, are your **systems** and **data protected**?
- Do you have your systems identified for recovery? Have **Recovery Time Objective** (RTO) reviews been performed?
- Have **Critical Data Dependencies** been identified?
- Are there systems that **cannot be recovered**?
- Do you know which systems are **Virtual**? Do you know what systems can be virtualized and which cannot?
- Is **Data Replication** in place?
- Does your replication model (**Storage**, Data, Systems, **Network Bandwidth**) support your DR needs?
- Is **Mobile** or **Remote Recovery Solutions** in place to ensure business operations continue in a disaster?
- Can your **phones and workstations** be recovered?
- Is your **Company's Email** protected in a disaster?
- Are your **Chief Executive Officer's** data and files recoverable in a disaster or outage?

Disaster Recovery Delivery Activities

<u>Action</u>	<u>Responsibility</u>
Enterprise Readiness Assessment (ERA)	DRS / Customer
Design the best fitting DR Strategy, Develop DR Plans	DRS / Solutions Partner / Customer
Build the Recovery Solution	DRS / Solutions Partner
Implement the DR Solution	DRS / Solution Partner

Delivery Plan

The success of an effective DR Program is in its planning and design to ensure strategies are established, roadmaps in place, and DR plans aligned with your BC Program.

Determine the best fitting Recovery Strategy

- **DRS** will conduct its **Readiness Assessment** to gauge the complexity of your DR needs and systems for recovery.
- Develop a scalable; spend smart solution fitting the customer's recovery and continuity needs and budget.
- Use **DRS' RTO Review** tool to determine RTO, Recovery Point Objective (RPO), and data dependencies.

Develop Disaster Recovery Plans

- Create Individual DR Plans detailing recovery steps for all systems to be recovered in a disaster.
- Tie recoveries through a Master DR Plan; covering recovery priority tasks plus communication plans.

Build and Implement the Recovery Solution

- Deliver a compliance-strong BC/DR solution.

Contact **Disaster Readiness Solutions** for more information or to schedule an appointment.

Disaster Readiness Solutions (DRS) will work with your organization to help build a **DR Program** and design, build, and deliver an **affordable, scalable DR Technical Solution** that will support your organization's **BC/DR Recovery and Readiness needs**.
