

ANNY'S
BREAD FACTORY

A Quality Bakery For All Homes!

ABOUT ANNIE'S

In 1996 Anny's opened its bakery's doors in North Miami Beach, offering an array of kosher and Parve products. The high quality of the products attracted locals, and created a community of loyal customers.

Quality became a staple of our bakery, and it went way beyond the products into customer relations; making sure every customer was completely satisfied became our number one priority. Therefore, Anny's decided to share its quality bakery portfolio with more people, and focusing on whole sale. This would allow us to be available at supermarkets nationwide.

In this process we have made sure that the core values that made Anny's Bakery so popular didn't get diluted but reinforced. We take special care of our original recipes; everything is hand made and uses natural ingredients ONLY – no additives or substitutes – to ensure consistently high quality products.

At Anny's factory we make sure to keep the traditions alive. Our recipes have been passed from one generation to another, and with them, our love for baking and desire to share a little piece of us in all homes. We invite you to try our products, and are sure you will be completely satisfied.
