

### **Licensed Therapist (LMHC/LCSW)**

The Recovery Research Network (TRRN) offers Adult-Only Outpatient Treatment for Substance Use Disorder through a unique treatment platform designed to drive superior patient outcome and build an efficient and effective paradigm for treating substance use disorder. TRRN's treatment platform integrates a novel, multi-phase treatment program, a proprietary software for collecting and analyzing longitudinal patient outcomes, and a translational clinical research program. With over 100 years of combined experience in the field of addiction medicine, TRRN's Executive Team has a comprehensive understanding of how to effectively build integrative models of individualized treatment, research, and community-based educational programs to advocate, advance and create awareness of our understanding of addiction and promote long-term recovery.

TRRN is seeking individuals who are interested in joining a multi-disciplinary team and who are also motivated to change the direction of substance use disorder treatment utilizing science and technology to redefine best practices.

### **ROLES AND RESPONSIBILITIES: THERAPIST**

Under the direction of the Chief Executive Officer (CEO) and Chief Medical Officer (CMO) and in close collaboration with the Vice President of Network Operations, the Counselor/Therapist provides psychosocial support, behavioral health assessment, individual and small group therapies for chemically dependent patients and/or their families. This role will be a key position within a multi-disciplinary treatment team, and they will maintain a defined caseload, develop treatment plans, lead educational groups, and provide timely and accurate documentation. The Counselor/Therapist also ensures that clinical programs and business expectations across multiple customer teams are managed based upon standard policies and procedures. Additionally he/she will ensure that staff members work collaboratively as a team, are focused on high-level clinical quality, and work efficiently and effectively to achieve established targets and goals, providing a positive, and seamless experience to the patients and organizations that the Company serves. The primary responsibilities are detailed below:

#### **Substance Use Disorder Treatment**

- 1 Provides clinical review and evaluation of assigned patients with substance use disorders; must be familiar with the various levels of care available for those with substance use disorders

- 2 Facilitates individual and small group therapy sessions for chemically dependent patients and/or families of these patients
- 3 Works with patients and their families to develop/advance their knowledge and understanding of their condition/disease as well as identifying achievable therapeutic goals
- 4 Teaches patients to utilize the tools necessary to maintain recovery and avoid relapse
- 5 Contributes to and fosters an environment where our team of compassionate care providers effectively and collaboratively treat patients and keep them on the path to recovery
- 6 Treats patients in accordance with TRRN's protocols
- 7 Provides expertise and input regarding the type, level of intensity and quality of care for patients
- 8 Ensures compliance with HIPAA and efficiently completes accurate patient documentation
- 9 Reports to departmental director and CEO and executes expanded functions as requested.

### **Outcomes Tracking**

- 1 Oversees and ensures program adherence
- 2 Monitors urine drug and other relevant laboratory results and data
- 3 Utilizes TRRN's proprietary software to evaluate and track patient outcomes and monitor treatment effectiveness

### **Professional Requirements**

- 1 Master's degree in Social Work, Rehabilitation Counseling or related field preferred; supervised experience pertinent to licensure/certification preferred
- 2 Florida licensure required for the following designation: LMHC or LCSW
- 3 Addiction Medicine and/or Behavioral Health experience preferred.
