

WV Blowout

GEL STICKS FOR WATER, OIL, AND CONDENSATE REMOVAL FROM GAS WELLS

PRODUCT DESCRIPTION

The Oklahoma Blowout is an orange gel/paste in a water soluble polymer tube or soluble paper tube.

PRODUCT BENEFITS

This stick is formulated to foam oil and water. Its best suited for wells producing greater amounts of hydrocarbons than water. This product has also proven to be an effective emulsion breaker. Paraffin removal successes have also been reported when used in plunger lift systems. Rod pumped wells can be treated by placing the sticks in attached chemical pot and circulating in the well.

APPLICATION

Remove plastic bag, inject entire stick down the tubing. Use sticks with paper tubes in shallow low pressure wells.

SHIPPING AVAILABILITY

Stick sizes of 3/4" X 15" and 1 1/4" X 15" are available. Shipped in 50, 70, and 100 count cases. 55 gallon open top drum bulk shipments are also available. Other containers are optional.

TYPICAL PHYSICAL PROPERTIES

Odor.....Typical
Solubility.....Water soluble/Oil dispersible
Appearance.....Orange
Shelf Life.....3 to 4 Months, store in a cool dry area
