

Being an environmental activist entails caring & being active on every issue in your local area. A Custodian Guardian Gathering unites & caters for all environmental issues, non-violence & wealth apartheid.

We urge all environmentalists to unite. Become Custodian Guardian, start Gatherings & save the Planet for future generations. The longer you hesitate, Environmental Vandals, Polluters & profiteering Parasites threaten our health & future.

Want to 'Start a Gathering' use our guide available on the website.
