NURSING HOME

January 28, 2021  
Weekly COVID Update

Greetings from Midway Nursing Home!

There are no new cases of COVID for either staff or residents. Ongoing weekly testing of residents and twice weekly testing of staff continues. No residents or staff are displaying any symptoms at the present time.

Visitation remains on “pause” until at least February 8<sup>th</sup> but virtual visits are strongly encouraged and available daily. You may contact the Social Work and Recreation Departments today to schedule a virtual visit with your loved one.

CVS Health will return on Wednesday, February 10<sup>th</sup> to administer the 2<sup>nd</sup> dose of the COVID vaccine to those residents and staff who received their 1<sup>st</sup> dose on January 20<sup>th</sup>. The Pfizer COVID vaccine information and updates can be found on our website at [www.MidwayNursingHome.com](http://www.MidwayNursingHome.com).

Although some areas of the state have seen positivity rates decline, Midway Nursing Home and the surrounding area remains in a Yellow “hotspot” Zone. Please do all you can to stay well. Wear a mask when you are not in your own home, maintain social distance of at least 6 feet, wash or sanitize your hands often and avoid group settings and travel. Consider getting a COVID vaccine when you are eligible if you have not already done so.

COVID-19 has not gone away. We must stay vigilant and continue to do all we can to stay safe and well. We are in this together and look forward to seeing you soon!
