

# Trade In Your Blink Stations

Limited time offer

Offer expires  
December 15, ~~2013~~ 2014

Trade-In Credit of  
**\$2,200** for a dual-port  
station and **\$1,200** for a  
single-port station.

No new permit required  
and low swap-out  
costs.

Customers won't use charging stations that are overpriced. With Blink's new pricing, customers are now saying they won't use Blink stations any longer. Bring those customers back by upgrading to a ChargePoint station YOU control!

As the owner of a Blink EV charging station you may already be aware of Ecotality's recent Chapter 11 bankruptcy filing. For a limited time, all Blink station owners can upgrade to ChargePoint and receive a trade-in credit towards the purchase of a dual-port CT4000 Series charging station.

## Why consider ChargePoint?

- + World's largest network of independently owned and operated EV charging stations
- + Independently recognized as the worldwide leading EV charging station manufacturer two years running
- + 13,000+ charging locations throughout North America
- + 45,000+ EV drivers

## Who uses ChargePoint?

- 1,900+ customers including
- + Corporations: eBay, Google, LinkedIn, Johnson & Johnson, Visa
  - + Retail: Kohl's, McDonalds, Safeway, Target, Whole Foods
  - + Hospitality: Holiday Inn, Marriot, Ritz-Carlton, Sheraton
