It is possible for a team to have more than 4 players who qualify to play in the tournament.

(meaning more than 4 players who have played at least 1/3 of the time).

If a team has more than 4 players who want to play in the tournament, each player needs to have paid the full amount into the tournament. (\$3 x 20 weeks = \$60 each), (each week you pay \$7. \$4 of that goes into the team prize \$ & \$3 of it to the tournament prize \$).

So it's \$60 extra per each player over 4 that a team would like to enter.

This prevents someone from paying the minimum number of weeks (5 weeks = \$15) and then winning the money of all of the other players who have paid the full \$60

If you have more than 4 players who qualify & want to play, your team owes the extra \$60 per extra player. You must state which 4 (or more) from your team will be playing before the end of the regular schedule. If anyone is confused about this please contact Lynn.

END OF SEASON PAYOUTS:

PRIZE MONEY WILL BE BASED ON 11 TEAMS EACH PAYING IN \$28 PER WEEK for 19 weeks (380 total per team)

If a team drops mid season this number will change.
