

*Did you know that—*

## ThyssenKrupp Materials NA

is also your complete source for a comprehensive range of nonferrous tooling and mold making alloys from Alcoa and many other fine manufacturers.

Alloys include:

- QC-7® • QC-10™ • Alumecc 89®
- 7075 • 6013 • 6061
- Cast tooling and jig plate

*For the most complete line of aluminum and nonferrous mold materials call:*

# Tooling and Modeling Materials

## You can rely on AIN Plastics

to stock and deliver a complete selection of materials for all of your production and prototype tooling and modeling needs. Nobody delivers the high quality materials you know, from the names you trust, faster or more efficiently than the plastics experts at AIN Plastics.

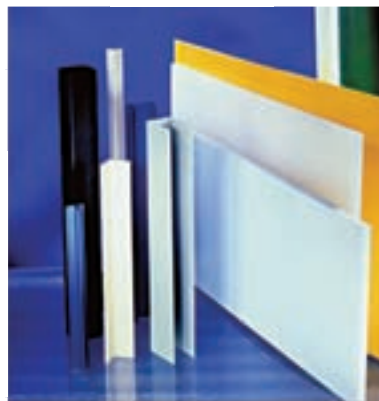

### Tooling Board

- Light Density Foam Boards — Density range is 4 lb to 40 lb. Sizes from 1" to 20" thick.
- Prolab 65 — For prototype vacuum form tooling and prototype patterns.
- Lab 1151 — For prototype vacuum form tooling and prototype patterns. Best suited for OEM fixtures.
- Lab 850 (Red Board) — For prototype vacuum form tooling for clear parts and for foundry patterns.
- High Temp Epoxy Board — For low production vacuum form tooling.
- Pine Pattern Plank — Soft wood for prototype patterns and tooling.
- Mahogany Pattern Plank — Laminated wood for prototype patterns and tooling.
- Fillers and Repair Pastes for modeling and tooling boards.

### Sheets for Forming

- Polyethylene and Polypropylene
- Markrolon® Polycarbonate
- Acrylite® Acrylic
- ABS
- Kydex®
- Styrene
- Vivak® PETG

### Resins

- Epoxy Casting Resins — Epoxy casting resins for foundry patterns and vacuum forming tooling. We have a wide variety of Aluminum filled to Iron filled resins for your application needs.
- Fastcast Resins — Fast setting urethanes for prototype tooling and fixtures for the foundry and vacuum forming industry.

AIN Plastics sets the standard for plastic shapes distribution.

Our nationwide network of service centers is as close as your phone.

Call toll free:

**(877) 246-7700**

## The AIN Advantage:

How AIN Plastics serves you better.

For more than 30 years, AIN Plastics has offered customers quality products, competitive pricing, complete inventory, skilled processing, expert assistance and fast delivery of tooling and modeling materials from the world's leading manufacturers.

That's why plastics users all across the country rely on the plastics professionals at AIN Plastics.

### Adhesives

AIN Plastics has a wide variety of adhesives for bonding thermoplastics and metals in assembly applications.

- Methacrylate
- Epoxy
- Urethane
