

Internal CCSD Procedure Regarding Reevaluation of Special Needs Students

NJAC 6A:14-3.8:

(a) Reevaluation will occur within 3 years of the previous evaluation

(b) 1. IEP Team will review existing information.

2. On the basis of that review the team will determine if additional information is needed to determine ALL of the following:

i. whether the student continues to have a disability according to NJAC 6A:14-3.5(c) or 3.6(a) (outlined in Eligibility Criteria Checklist.)

ii. his present levels of achievement

iii. whether he needs special education services and how that can be addressed by the IEP

iv. whether additions or modifications to the IEP are needed

3. If the team already has data to determine whether the student continues to be a student with a disability (see (i) above), the IEP team will provide notice to the student's parent, and will be required to conduct assessments if the parent requests them.

4. If additional data is needed to determine the 4 items above, tests or other assessment procedures will be administered.

(c) The team will take reasonable measures to obtain consent from the parent before beginning evaluations.

1. Each assessment will meet the requirements of an initial assessment (NJAC 6A:14-3.4(f)1-5 or 3.4(g)).
