“New Approaches to Characterize Feed Quality”

Ralph Ward (President of Cumberland Valley Analytical Services-CVAS)

Lynn Gilbert (Agricultural Modeling and Training Systems - AMTS)

Ralph Ward will be speaking about high ash values in forages and comprehending NDFom and Lynn Gilbert will be speaking about the updated CNCPS 6.5 ration balancing tool, respectively.

The meeting will occur on April 8, 2015. If you are interested contact Dr. Lynn VanWieringen at 509-836-2020 by April 3, 2015.

Reduced Feed Analysis Prices

Due to your support of the Ag Health Feed Lab and increased feed lab volume, we have been able to reduce cost on several analysis (>30% for mineral panel and >50% for dry cow mineral panel). Refer to the AHL website for the updated price list. www.aghealthlabs.com

Now offering BioPRYN Blood Pregnancy Testing for Sheep & Goats!

Please refer to AHL website for more information on how to draw blood for sheep and goats, and how to submit samples to AHL
