

Your personalized webpage can share your mission statement, pictures, products, sales items, special events, testimonials, etc essentially functioning as a website, hosted by the Chamber. A single webpage can hold a website of information without the cost of a service provider, website host or maintenance fees.

We offer all members the opportunity to come into the office for a hands-on education in designing their webpage and internet advertising, but it's not required. After the initial design, limited changes can be made monthly by request.

By using forestportchamber.org as a host for your webpage, you're not only saving costly monthly fees, but you're paying it forward to all Chamber Members by directing traffic through the Chamber's website.

The Forestport Chamber cannot accept any payments, nor can any members create an online store or a shopping cart to sell advertised items or services on your Chamber webpage. Items can be advertised, but other payment arrangements must be made.

For more information, please either email your questions to info@forestportchamber.org
Or call the Chamber office at (315) 793-7642.
