

**Ultrasonic Bulk Water Flowmeter**

Miu990 is ultra low power flow meter designed in accordance with EN1434 to cater to the specific needs of Water and waste water industry.

It is available in sizes 15mm (1/2"NB) to 1000mm (40"NB) in two models. Threaded end connection for smaller sizes up to 40mm(3 1/2 "NB) and Flanged end connections for sizes

The flow meter works on 'time of flight' principle and measures flow in accordance with the difference of time taken by sound wave to travel in up and down direction in flow path.

**Miu990****Features**

- Works on battery power
- Ideal for simple measuring tasks - continuous flow and totaliser for cumulative volume reading
- Guaranteed safety of application
- 'Miu990' offers all basic functions to guarantee very high reliability and measured value stability
- No moving parts
- No pressure loss
- Increased life
- Excellent repeatability due to no wear and tear
- Optimum process control based on an accuracy of + 0.5%
- Service-friendly - functional design makes maintenance work easier –
- MODBUS RTU/ASCII protocol over RS485 provide ease of communication
- Ceramic sensor provide wide temperature range – 40 to 160°C
- Pulse output enables connectivity or data transfer over RF/GSM/GPRS
- 5-6 years battery life
- Ideal solution for service issues with mechanical movement flow meters

**Applications**

- Raw Water (Prior to treatment)
- Pure Water (Treated)
- Waste water
- Bulk Supply

**General Specifications**

- Nominal diameter: 1/2 "NB – 40"NB (15mm-1000mm)
- Maximum fluid temperature:
- DC Power supply: 3.6 V/ 24 V for RS485
- Power Consumption: <1W
- Battery Type: Li-ion
- Battery life: 5 yr – 6 Yr depending upon size
- Guarantee: 1 yr – 5 yr depending upon type of battery and order terms.
- Various display view options
- Complete working unit no need of commissioning
- IP67 standard / IP68 available
- Self diagnostic error indications
- Flow Direction Indication
- Battery Status indication
- Service requirement prompt

**Dimensions:**

Normal type

Separate type

DN	Length	Width	Height	Thread	Weight	Pressure MPa
