TUF vs. Other Fundraisers

Costs

Other Fundraisers

Other fundraisers make your organization pay up front costs that are often expensive and rarely refundable, such as marketing materials and products.

TUF

Totally FREE!!!

Customer Service

Other Fundraisers

Other fundraisers usually provide very little customer service. They are typically hard to get a hold of and rarely take an interest in your organization once you sign up. On top of that, you hardly ever see anybody who works for the fundraiser.

TUF

TUF has incredible customer service. We check in with you often, and constantly communicate with you to provide the best fundraising experience possible! We offer hands on support with every fundraiser you do with us!

Presentations

Other Fundraisers

Other fundraisers rarely give presentations to your organization and its members.

TUF

TUF offers multiple live presentations to not only the leader and your board but also, all the members and the families of your organization. These presentations are designed to make your entire organization completely comfortable with the fundraiser and its process.

Length Of Fundraiser

Other Fundraisers

Other fundraisers aren't as concise or precise as TUF, which limits your earning potential. They don't take into consideration other fundraisers or activities your organization has planned, which can cause conflicts and added stress.

TUF

TUF keeps its fundraisers focused by creating a concise timeline and process, which allows

your organization to maximize its profits all year long. We also schedule around your current events, not interfering with **ANY** of your other fundraisers or activities.

Effort Needed From You

Other Fundraisers

Other fundraisers usually take a tremendous amount of man hours from not only the leader of the organization but also from the members and families of the organization. As these other fundraisers don't provide the structure which is needed, you are expected to do much of your own coordinating and organizing just to make the fundraiser work.

TUF

TUF requires **VERY LITTLE** effort from the leader, the families or the members of the organization. We pride ourselves on designing the fundraiser so that minimal effort is required to maintain the fundraiser. TUF does all the “heavy lifting”, allowing your whole organization the comfort of staying focused on its every-day needs.

Handling Of Products

Other Fundraisers

Other fundraisers require that you not only buy a minimum amount of product upfront, but also expect you to handle and store the products throughout their entire fundraiser.

TUF

TUF is solely responsible for the handling, storing and distribution of the products, allowing for a more stress-free fundraising experience.

Order-taking

Other Fundraisers

Other fundraising companies who do pre-sale fundraisers, usually make it too complicated for your members to sell effectively, cutting into your profit margin.

TUF

TUF has a simple order packet, allowing ease of use for your members and any customer you may approach. Easy to follow, our order process gives you the ability to sell in bulk and complete your sales in timely manner.

Handling Of Money

Other Fundraisers

Other fundraisers require you to not only handle all the money, but expect you to devote hours to doing all the precise accounting.

TUF

TUF is designed to handle all the major monetary transactions for you. We also do all the painstaking accounting, including paying for product.

Profit Margin

Other Fundraisers

Other fundraising companies create their profit margin, by taking the products you're selling and inflating the cost. By doing so, you end up making money only because your friends and

family are willing to “help you out” and pay a higher price than the product is worth. In turn, they buy less product, now and from any other fundraisers in the future.

TUF

TUF is not only committed to helping your organization raise money, but the concept of “Pay It Forward”. This means while other fundraisers are okay with selling a lower quality product for a higher price, we here at TUF pride ourselves on generating profits for your organization and simultaneously passing along savings to your customers!

Types Of Products

Other Fundraisers

Other fundraisers offer generic, low-grade products, most of which are not useful or needed by your customers. Additionally, their product selection is limited, not allowing your customers buying options.

TUF

TUF takes pride in offering high quality products, that support local businesses, which are offered at great prices. Our products are carefully selected to cater to your organizations needs, allowing your customers a perfect selection and your profit margin to soar!

Types Of Organizations

Other Fundraisers

Other fundraisers usually only work with some schools and non-profits.

TUF

TUF can do a fundraiser with basically ANY organization that wants to raise money. TUF works with organizations such as schools, sports teams, non-profit organizations, churches, government agencies, political campaigns and pretty much any type of organization you can think of. Check out our page titled "Types Of Organizations We Work With".

Prizes

Other Fundraisers

Other fundraisers rarely ever give any prizes, and when they do, they often only give 1 big prize, that only 1 person can win.

TUF

TUF **GUARANTEES** giving the **BIGGEST & BEST** prizes of **ANY** fundraiser in the country! Not only that, but each member has the ability to win **ANY** prize! **EVERYONE** has equal opportunity to win the best prizes no matter who else wins!

As you can see, TUF is head and shoulders above the rest of its competition!!!
