For those businesses that have not yet submitted the required business license or LOT permit applications, there is still time. The first tax voucher payments are due by 2/20/22 for January 2022 sales.

### Propane Tank Safety

Use a broom instead of a shovel when clearing snow off the tank or around the exposed piping, regulator, gauges, or tubing.

When clearing the roof, avoid shoveling snow onto exposed piping around the propane regulator near the building or onto the propane tank and piping, as well as any meters or other piping that may be in use.

## Please, **BE WATER WISE**

### Protect and Conserve

Drip your faucets. Yes, use water to save water; leaks can be expensive. \* Consider using the water from your pet's bowl or fish tank to water your plants. \* Stay on top of removing your pet's waste during the winter - it is more concentrated in snow, will run off in the spring into streams and rivers and can raise bacteria and nutrient levels. \* Salt used to melt ice can damage fresh water ecosystems. Consider using calcium chloride (CMA) alternatives. \* Install a tankless water heater - waste less water while waiting for faucets to warm up.

Thousands have lived without love, not one without water.

### SNOW and BERMED DRIVEWAYS

On 2/12/2016 this topic was discussed at a City Council Meeting and it was determined that to plow every driveway would not be feasible due to limited staff, budget constraints and fairness to tax payers.  
**Snow removal at the entrance to or on private property is the responsibility of the property owner.**
