

## 2020 Automobile Property Access Decals

MSOA is rolling out the RFI (Radio Frequency Identification) tag program to all residents over the next few months. This will eliminate the need and expense of issuing annual decals. For that reason, there will be no 2020 decals issued this year.

Please do not remove your colored/numbered decal that indicates your association, i.e. red Lakeside, blue Surf Club III, yellow Las Brisas, etc. These decals will continue to be issued for new cars, new owners or new long-term tenants for the foreseeable future.

Association decals will continue to be used to identify authorized access until the RFI tag program is fully implemented. Once that happens, the combination of RFI tag and association decal will identify authorized access where there is no owner entry lane.

Thank you,

MSOA Management
