

How RecoveryWerks! Helps Me...

RecoveryWerks! means being able to have a life after addiction, to me. It means that I can go out and socialize and share with others who struggle with ~~the same~~ similar problems. ~~That~~ One of my favorite aspects of this program are the sober activities. One of my biggest fears when I first started programs was that life was just going to be serious from then on and having fun was going to be unheard of. I have had more fun at sober activities than I could have ever imagined. It's also really beneficial ^{to me} to be surrounded by like-minded people who have ~~worked~~ fought the battles I'm just starting to face and won, or learned from them and can help me in decision making and 'adulting' like how to have real relationships with people or even helping through fears of school or applying for a job.
