KLEEN UP – MASONRY AND CONCRETE CLEANER

DESCRIPTION

This product was specially formulated to dissolve and remove concrete, film, scale rust, scum and other insoluble carbonates with greater ease and safety than mechanical grinding operations. Expensive labor cost for grinding, brushing and scouring and just plain old rubbing is now replaced with a rapid safe spray and rinse operation. This is safe substitute for muriatic acid. No special safety precautions are required. Normal professional care eliminates the hazards associated with strong acids.

It is especially useful for removing mortar and plaster film from construction finishes, including anodized aluminum window frames and painted surfaces, without damage, when used according to directions. Its unique blend of powerful inhibitors and detergents makes handling and storage safer.

This product is completely soluble in water. In the dilutions obtained by rinsing, it is harmless to soil, slabs asphalt and foundation structures.

FEATURES

- **DISSOLVES SCALE**
- **REMOVES PLASTER**
- **ETCHES CONCRETE**
- **REMOVES RED MUD**
- **DISSOLVES CORROSION**

USE AND DIRECTIONS

May be used undiluted or mixed with up to 10 parts of water. Apply by brush, dip soak or spray. (If spray is used, use a coarse pattern that does not fog the atmosphere.)

Wet surface first before applying. Soak surface from 1 to 15 minutes, until desired results are obtained. Repeat if necessary. Rinse thoroughly with running water.

Keep vertical surfaces well wetted out during soak period. Heavy accumulations of corrosion rust or lime may require a second application and up to 30 minutes soak time.

OVERNIGHT DIRECTIONS: Spray cold oven as directed above. Close door and allow standing overnight for eight hours or longer. Next morning, wipe clean with wet cloth or sponge, then thoroughly rinse surface with potable water.

For light soil and touch-ups, spray cold oven as directed above. Allow to work 20 minutes or more. Wipe clean using wet cloth or sponge, then thoroughly rinse surface with potable water.
