Helping People Change the Way
They Live Their Lives

Greetings to all my friends,

This newsletter titled April is a little late considering today is the last day of the month. The delay is for good reason. I have exciting news to share but wanted my new web page ready to provide you with the best possible presentation.

I Found The Magic Pill.

Several months ago I came across something quite incredible. A rich prehistoric deposit of 70 plant based colloidal minerals mined in Utah, USA, known as the Senonian Compost. This is the stuff our bodies need daily to support enzyme function before you can begin to absorb vitamins and nutrients. We no longer get enough of these minerals from the food and water we eat and drink. Most supplements today are synthetically processed. If you understood some of the words and terms used in small print on the labels you would never put them in your mouth. Plant based is Mother Nature's finest thus easily absorbed and processed by the body.

As most of you know, I am health conscious. Much of my diet is raw organic vegan and for many years I have been taking Super Greens as my daily supplement

I added SenTraMin Minerals to my diet six months ago with great results. It has supercharged my health and vitality beyond expectations. I recommend you take a look if you want to live long, healthy and free from yourself from prescription drugs and surgery.

You were given an incredible body that heals itself providing you give it the right fuel.

SenTraMin Minerals combined with Super Greens is the most powerful fuel source you will find.

Check out [my new web page](#). Watch the MD approved videos on my webpage and decide for yourself.

My occasional emails are to update you with information, events or discussions where I have been invited to participate as a guest speaker. If you no longer wish to receive these emails, please simply click reply and I will remove you from my list.
