

# Bumblebee

4 years-5 years

The preschool class is designed to introduce and familiarize students with a typical classroom setting. The teachers in this class hone in on each child's personal needs in academics and social and emotional development. The curriculum in this class is focused around each letter of the alphabet and extends from there to incorporate colors, shapes, math, science/exploration, reading/literacy, large motor skills and fine motor skills with handwriting being a focus. Teachers encourage independence, creativity and imagination!
