- ✓ Barber shops, hair salons and nail salons may operate while adhering to safety protocols effective May 11

SCHOOLS

- ✓ Students continue with distance learning

LONG-TERM CARE FACILITIES

- ✓ Visitation in long-term facilities prohibited for COVID-19
- ✓ Hospitals required to test all individuals before discharge to long-term care facilities
- ✓ Long-term care facilities required to transfer COVID-19 positive residents if the facility is not equipped for appropriate care

Safe. Smart. Step-by-Step.

PLAN FOR FLORIDA'S RECOVERY

GUIDING PRINCIPLES

for Re-Opening

Public Health & Safety

The first priority in re-opening is maintaining the health and safety of all Floridians. Every measure taken by state and local governments, businesses, and individuals should consider the general health and safety of the public.

Health Care System Readiness

Health facilities should be able to return to normal operations through a prudent approach that ensures available capacity to treat COVID-19 patients in the event of a medical surge. Health care systems also need to develop models for the sustainability of medical supplies and preservation of medical resources without the need for public augmentation of medical supplies.

Protection of the Vulnerable

Targeted measures should focus on Floridians over the age of 65 and those who have serious underlying medical conditions to prevent exposure to COVID-19.

Economic Recovery

The **Safe, Smart, Step-by-Step** plan to re-open Florida should support the highest practicable level of business operation while maintaining public health and safety, so that all Floridians can return to work and the economy can recover.
