

A note from the Mu Alpha Theta President to Students:

I hope you have enjoyed this year in school and within your Chi chapter. As you plan for summer, consider checking out our website. We have grants specifically for junior high students to attend math related camps.

If you are moving forward to high school, please consider becoming a part of your school's Mu Alpha Theta Chapter and joining in the competition fun! If your school doesn't have one, be a leader and start a math club. If you are not moving up to high school next year, consider becoming a leader in your Chi chapter. Ways to become a leader could include, but is not limited to,

* Finding a guest speaker to come talk about jobs with math, math competitions, or having a math teacher present a new topic that is not normally taught in the classroom (like binary numbers or topology)

* Holding a competition just within your club

* Finding an online or in person junior high competition your club can participate in

* Going into other classrooms and having a pi day party

A note from the Mu Alpha Theta President to Chi Sponsors:

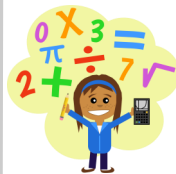

Thank you for fostering a love for math in your students! The Governing Council and National Office appreciate you giving of your time and talents to the students. Please contact the national office if you have any questions or just need help with chapter activity ideas. We can connect you with a mentor in your area or on the council. I would also encourage you to connect with your high school chapter of Mu Alpha Theta and see if they could host a meeting for you to talk about what the future in mathematics looks like at the high school level.

Thank you, Rita Ralph, President

MERCHANDISE:

We have new silicone wristlets that say Chi Alpha Mu - Middle School Math Club. \$1.00

FREEBIES:

We have free TI-84 Plus & Ti 89 Titanium calculators for your chapters. Calculators are given on a first-come, first-served basis and each chapter may receive only one.

Email info@chialphamu.com to request your calculator.

Chapters who have received a calculator in the past four years are not eligible.

Karen Kating
Mu Alpha Theta - Assistant Executive Director
Chi Alpha Mu Coordinator

REMINDERS FROM THE NATIONAL OFFICE

GRANTS:

Summer Grants are offered to support middle school students who will attend a summer math program. \$500 is made available for this grant.

Chapter Grants of up to \$250 are offered to our middle school chapters who need financial support to pay for math related activities.

Competition Grants are offered to help defray the cost for a chapter to attend a math competition. The funds can be used for entrance fees, transportation, or other expenses. Up to \$250 per year, can be granted.

PARTNER WITH MU ALPHA THETA:

Local chapters can be found by calling the National Office at 405-325-0144.

Plan math day activities, field trips, tutoring sessions, and more!
