'Crushing Copper'

11 songs, 35 minutes

Records DK (2016)

Creep Newholland, Dave Buzard, Ernie Dirt and "Doc" Shoulders have a prescription for you: more up-tempo pop-punk.

This four-piece outfit from Pittsburgh doles out plenty of it on "Crushing Copper," released earlier this year. The album tempers its angst and outrage with major scale-riffing and bright production quality.

Some of the better moments on this record come when the music speaks for itself. A good example is the solo on "Deep," the album's opening track.
