Swimming **Pool Tile**

Pool tile are some of the most attractive pieces on the market today. This type is generally made of water and is frost proof, making it an ideal choice for any climate. New this year, we are offering a signature line of glass mosaic **pool tile**. Called ModWalls®, these blends are perfect for liners or accent strips. You can create your own work of art with one of our glass blends, or contact us for a custom design session.

Our selection is ideal for designing an entire swimming area, a colorful border, or a mural at the bottom of your swimming space. With so many colors and designs to choose from, we know it's hard to make a decision. We will send you samples of up to ten colors and styles, or any two blends to help you accurately plan your project. With orders of \$100 or more, we will refund the cost of the samples (a \$9.85 value).
