

THE DOCTOR'S HOUSE

Gratitude & Education

We thank our patients for enabling us to provide the best medical care possible since we opened our office in Unionville in 1983. We also express gratitude to our patients for allowing us to involve so many young medical trainees. We thank Dr. Kim Van Wyk who finished her 2 years of family medicine training with us in 2019. We welcome Dr. Julianne Falconi, our new long term family medicine resident. We express huge gratitude to our long serving staff. They have worked hard and allowed us to effectively train the doctors of tomorrow. One of the many key roles of a family doctor is to educate patients. Our staff have enabled us to share the values that we cherish as medical providers to you, our patients.

40 Years a doctor

Dr. Carson's 1980 medical school class from the University of Toronto will have a big reunion in June.

Collaboration

Dr. Carson is proud to inform his patients about our collaborative success. We still keep in touch with many of our long term trainees. Dr. Falconi's preceptor role is indeed being shared between Dr. Carson and Dr. Sana Rahman, our resident who finished her training with us in 2011. In addition, Dr. Carson is still collaborating in research with former residents. For example, Dr. Petra Wildgoose, who finished her training with us in 2018, has written a paper with Dr. Carson that is intended for publication in a major medical journal. Finally, Dr. Carson has been invited for the third time in the past few years to present to his family medicine colleagues at the 5 Chiefs Conference next April.
