

# T&T Handbook Helps

PARENTS: Please note that your child should be coming to club with their section completed and ready to say. Each section is broken down into a few different components, some mandatory and some optional. The information below is help you understand exactly what you clubber is expected to do.

**Explore**

**Start Here**

**Memorize**

**Review**

**Silver Extra Credit**

**Gold Extra Credit**

**MUST DO:** In order to pass the section, your clubber must complete the Start Here, Explorer, Memorize and Review portions. These should be completed BEFORE your clubber comes to club. The large and small group times at club will be used to discuss what your clubber has learned in each section. A schedule is available so you know which section will be discussed each night.

**EXTRA:** There is also an optional Silver Extra Credit and Gold Extra Credit sections. The Silver Extra Credit is an extension of the Explore (or bible study) component of the section. The Gold Extra Credit section includes 4 additional memory verses.

Does the section schedule mean my child can't work ahead of the group? – No. For clubbers who are able, you can work ahead of the group, with one big rule: You cannot move ahead of the section scheduled unless you have completed all prior sections, including the silver and gold extra credits.

What do I do if we miss a week? – Your clubber is always welcome to do more than one section in any night to catch up. If that is a little much, your clubber may pick back up at the section the group will be working that night (according to the schedule).
