

Hempshill Hall Primary School

Curriculum Policy Statement

Our philosophy is “Happiness, harmony & success”. We believe that “every child matters” and in order to achieve this, we structure the curriculum to encourage children to be self confident, independent and have a positive attitude to their learning.

We have a cross curricular approach, where we integrate subjects into all aspects of learning, believing that this holistic approach ensures each child makes the relevant curricular connections in order to make learning meaningful.

Through creativity, we develop the children’s ability to solve problems, think imaginatively and be enquiring and inventive.

We aim to develop a broad and balanced curriculum, while extending every child to their full potential. We provide gifted & talented workshops for the high attainers and achievers.

Our curriculum provides children with real and concrete experiences that enhance their skills, learning and understanding.

We extend the curriculum to provide a wider, even global, perspective, which involves not only media links with other countries, but also the learning of Spanish across the school.

We believe that this whole school approach to the planning and delivery of the curriculum facilitates personalised learning for all children.

Sally Dakin and Karen Gregg
Joint Head Teachers
