

Research Form

Thank you for contacting the Museum with your research question. Because of the number of requests we receive and our limited staff resources, we must charge a fee for research when your question cannot be readily answered.

The research fees are:

- Free research services for members of the History Museum at the Castle / Outagamie County Historical Society.
- \$25.00 per hour for non-members.

Before you continue, please know that many of the sources we turn to in our research are available in other public repositories or online digital collections. Most genealogy resources are available at the Appleton Public Library and Outagamie County Register of Deeds.
