17	Hammered Dulcimer	Built In Pick Up to DI	Venue DI	No	<input type="checkbox"/>		

All channels to be fed through bands own splitter box to allow for IEM control (band mixed). These will then be fed into venue stage box via cable snake. An additional power socket will be required. All Phantom Power will be provided by the band setup.

No Phantom should be sent by the venue system!

for IEMs.
