

Professional Qualification Workshop: Rope (Pro-Qual: R)

This workshop provides independent verification of a student's qualification as a rope technician as required under NFPA Standard 1006. This workshop is not an instructional course, but rather is a place for fully trained rescuers to prove their competency.

Attendees must complete a taskbook prior to attending the workshop. These can be ordered from the corporate office after the completion of a **TRR: TL** course.

Standard:	NFPA 1006 Technician (Rope)
Prerequisites:	TRR:TL
Equipment:	Rope equipment
Tuition:	\$200
