OBJECTIVES OF WORKSHOP

- We will be making the Wall size (36" x 36") of Well-Rounded.
- We will learn Methods 3 & 6 of *The Learning Curve* ruler to machine-piece the perfect curved units that create the illusion of overlapping circles.
- We will learn tips for successful free form curved piecing, accurate ¼" seam allowance (for straight seams), rotary cutting, and pressing.

WHAT TO BRING TO CLASS

- **Special Items:**
 - *The Learning Curve* ruler by Linda Warren Designs.
 - *Well-Rounded Pattern* by Linda Warren Designs.
- **Basic Sewing Supplies:**
 - Sewing machine, extra needle, bobbins, presser feet, owner's manual.
 - Rotary cutter (small or medium), cutting mat & rulers (Best: 6x24 and 6x6).
 - Paper, pen or pencil, pins.
 - Coordinating thread (Medium value gray or beige usually works.)
 - Optional: Iron and ironing board (We need one for every four people.)

- **Fabrics:**

At the very minimum, bring 1½ yards each of two contrasting fabrics (or fabric groups), A and B. Solids, ombrés, blenders, batiks, or small-scale prints are recommended. Fabrics should be good quality, and similar in weight and weave. (Avoid thick fabrics). Prewashing and pressing are recommended (no starch). Purchase extra if you want a matching binding or border.

Examples:

A	contrasting with	B
Dark scraps	"	Light scraps
Solid black	"	Yellow/orange/pink ombré*
Light/dark green ombré	"	Pink/purple ombré**
Dark blue prints		White prints

*The Sunrise sample quilt measures 36" x 36" and uses about 1.25 yards each of two fabrics.

**The Bubble sample quilt measures 44" x 60" and uses about 2.25 yards each of two fabrics.

I suggest you start with the smaller size, but you can always make it bigger by adding additional rows.

PRECUTTING AT HOME

Hit the ground running on workshop day by having all your fabrics prepared, and the following pieces cut.

From Fabric A:

Cut one 4½" strip, and cut it into 4½" squares. (About 8)

Cut one 3½" strip, and cut it into 3½" squares. (About 12)

Cut one 5½" strip, and cut it into 5½" x 3¼" rectangles. (About 12)

From Fabric B:

Same as Fabric A.

We will do the rest of the cutting during class.
