SERVICES

- General Contracting
- Construction Management At-Risk
- Design-Build
- Pre-Construction Services
- Sustainable & Green Construction
- Task Orders

HOW CCG WILL HELP YOU...

- Leveraging more than **40 years of construction experience** to lead CCG's team in providing exceptional services to your project. Our principals administer executive oversight to every project.
- Affording our clients **best value pricing** through comprehensive and cost effective estimates that implement lessons learned. This minimizes risk to our clients and enables CCG to proactively resolve field matters.
- Investing in CCG Staff **continued education and training** to provide our clients with the technical expertise necessary to ensure service that is cohesive and efficient.
- Providing **full service construction management**. CCG integrates projects from the development of scopes of work through the Operation and Maintenance phase. Additionally, we have the capacity to perform the architectural finish trades which allows our team to further expedite the schedule and strengthens quality control.
