

THE HAGUE CHRONICLE

VOLUME 17 No. 12

HAGUE, NY 12836

DECEMBER 1988

CHRISTMAS IN OUR CHURCHES

CHURCH OF THE BLESSED SACRAMENT CATHOLIC - RICHARD BRODERICK, ADMINISTRATOR

Eucharistic services will be 7PM Tuesdays, 9AM Wednesdays, and 9AM Sundays during the season. An Advent Scripture course will be held at 7:30PM on December 21.

Sunday, December 18 - 3PM - Special Family Celebration, "Christmas Around the World." Families have been researching Christmas customs in other countries and will give short presentations on their findings. A social will follow with international foods. The public is cordially invited to this special event.

Saturday, December 24 - 5PM Lessons and Carols followed at 5:30PM by the Vigil Mass of Christmas.

No mass is scheduled for Christmas Day.

HAGUE BAPTIST CHURCH REV. DAVID C. LAWRENCE, PASTOR

Sunday, December 18 - 9:30AM Sunday School; 10:30AM Worship Service

7:30PM - Ecumenical Community Candlelight Service followed by the sharing of Baby Jesus' birthday cake in the church annex.

CHRISTMAS DAY - 10:30 AM Worship Service (No Sunday School)

HAGUE WESLEYAN CHURCH REV. KENNETH MORRIS, PASTOR

Saturday, December 17 - Dinner at 6PM, followed by program by Sunday School

Sunday, December 18 - Regular morning services

Sunday, December 18 - Youth group plans to go caroling at 5PM

Christmas Day, December 25 - Morning worship service at 11:00AM

SCHOOL BOND ISSUE IS TURNED DOWN

On November 15 Ticonderoga and Hague voters went to the polls to vote on two school bond issue proposals for some \$2 million worth of repairs to the schools, including \$400,000 for the construction of an elevator in the high school building. The first proposal was defeated with 359 voters approving and 537 casting "no" ballots. Proposition No. 2 was defeated by 730 to 157. The Glens Falls Post Star stated "The large voter turnout can be attributed in part to a telephone campaign conducted by Hague residents who encouraged Hague voters to cast their ballots in the referendum. Some Town of Hague taxpayers have been complaining about what they see as an unfair tax burden for Hague residents." It was reported that over 200 Hague residents voted in this referendum, a much higher than average turnout. It showed that every vote does count and one should always exercise his right to vote.

The School Board now faces a dilemma of how to finance the repairs to the buildings, which obviously are very necessary. The Superintendent of Schools has been given the task of coming up with some future plans, which should be available shortly... DJH

HAGUE VOLUNTEER FIRE DEPARTMENT MEETING
12/5/88

It was reported that \$108,353.04 has been raised so far for the new fire truck. The total cost of the truck is \$171,000 plus \$23,999.34 for extra equipment. Three firemen, Tom Stull, Martin Fitzgerald, Sr. and Martin Fitzgerald, Jr., journeyed to Appleton, WI last month to inspect the truck at the Pierce Pumper plant there. The truck will be delivered to the Tyler Fire Equipment Co. in Elmira, NY in mid January for special work, and should be delivered to Hague by January 31, 1989. That will be an exciting day for all of Hague!

Chief Paul Davis reported: there will be one-half to one hour class each Friday to coincide with radio and sirens; Essentials course will be given in Ticonderoga on January 9 and 10, in Chestertown on January 2 and in Lake George on January 4 - all firemen are required to take this Essentials course; there will be no drill this month.

Gerry Boyd reported: Ambulance calls - 7; 256 miles; 50 1/2 hours; 2 transports to Glens Falls; 1 standby for fire. For these calls we used 4 EMT's, 3 1st responders, 7 firemen and 3 fire police.

FIRE DEPT. (CONT.)

Gerry also reported that on Jan. 25 nighttime classes will begin for EMT course, sponsored by County Assoc. to be given at the Municipal Center in Lake George. On Jan. 26 daytime classes begin. It should be pointed out that this course is open to anyone who might be interested. One does not have to be a member of the Fire Dept. to enroll. It is a twice weekly course and is very rewarding.

Gerry also reported that ambulance drivers' classes will be held on February 6 and 8 from 6-10PM.

A DEFENSIVE DRIVING COURSE WILL BE HELD ON JANUARY 14TH FROM 9AM - 4PM. THIS CLASS IS OPEN TO THE PUBLIC. The cost will be between \$26 and \$28. Call John Breitenbach, 543-6483 for more information.

The annual Christmas party for members will be held on December 17 at the E.M.A. in Ticonderoga.

\$180 was realized from the Election Day lunch.

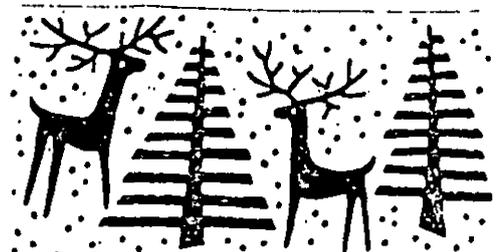

President John Breitenbach read a letter from Ambery Butcher, director Silver Bay Association in which he enclosed a pledge from the association for \$7500 to paid over a three-year period.

The Hague Ambulance Squad has four EMT's (Emergency Medical Technicians). They are Doug Sperling, Craig LaCourse, Wendy Heritage and Gerry Boyd. These people have put in 150 hours of training and have passed tests to qualify them as EMT's.

We also have seven First Responders. This is between Advanced First Aid and EMT, leading to the EMT program. They are John Breitenbach, Carol LaPann, Reg Rand, Marilyn Priore, Steve Priore, Diane Frasier and Sal Santaniello.

Hague can be very proud of these men and women of the Hague Volunteer Fire Department. They have given many volunteer hours to help the people in this community.

Now it is time for the community to get behind the Fire Department. The expenses have mounted each year. Insurance rates have climbed astronomically. This is the Christmas season. When you are making out your Christmas list, please don't forget to add The Hague Volunteer Fire Department. We owe them a great deal. Please send them a contribution to show that they are appreciated. DJH

ZONING BOARD OF APPEALS 11/17/88

A letter to the Revision Committee was read in which the following two new ideas were suggested.

1. Appropriate reprimand for builders who do not follow the regulations.
2. A foundation check should be made by the county before the building in question is started.

At the last ZBA meeting the Mitchel Frasier variance for a deck that would encroach on road right of way was authorized with certain changes. The Frasier's have been granted a re-hearing since they disagree with the results of that decision. A public hearing will be held on December 15 at 7PM in the Town Hall

PLANNING BOARD - 12/1/88

No action was taken on any proposed sub-division. Sight plan reviews were scheduled for the following proposed sub-divisions for 12/6/88.

1. Krueger's 4-lot minor sub-division of properties located on New Hague Road.
2. Ray Laudree's 3-lot minor sub-division on NYS Rt. 9N.
3. Clifton Frasier's minor sub-division off Hollow Road.

No response to date from the APA concerning possible wet-lands on Martin Fitzgerald's property located on the west side of NYS Rt. 9N, Sabbath Day Pt.

Mr. Robert Katzman will provide Planning Administrator Costello with a copy of the Arcady Bay Estates prospectus prior to any decisions concerning the proposed 2-lot sub-division of land presently occupied by the former Arcady Bay Camp recreation hall.

The Board moved to send Mr. James Ward a letter reviewing the conditions contained in his permit to construct the model log home and marine sales building located on NYS Rt. 9N.

The Board moved that the Zoning Revision Committee address the issue of the number of feet of road frontage required for a building lot.

TOWN BOARD MEETING - 12/13/88

Several people accepted the privilege of the floor before the Town Board meeting at 6:30PM. Bob Patchett received permission to send copies of a report summarizing the problems of Lake George that were discussed at a combined Chamber of Commerce, A.L.E.R.T, and Lake George Park Commission meeting to the Town, Planning and ZBA Boards of Hague.

L. Meade mentioned the sighting of a bald eagle at Friends' Point and that she is no longer reporting for the Post Star but is writing for The Times of Ti. G. Lindquist commented on how beautiful our town looks with the Christmas display, made through the efforts of Curley Monroe. D. Henry was assured of a cleanup on the hill behind the former school.

Communications and petitions include: Letters by Supervisor Bolton on the many Hague power outages and bumps to Niagara Mohawk and the Public Service Commission, - had quick results from both groups. Reasons given for the problem include weather, falling trees and changes of current direction. Tree trimming and clearing of brush will be addressed within the next six months.

Gordon May's family said "thank you" for all the town has done for his children and for him.

As of Feb. 1 there will be a price change for new cable installation, extra installations and a charge for late payment.

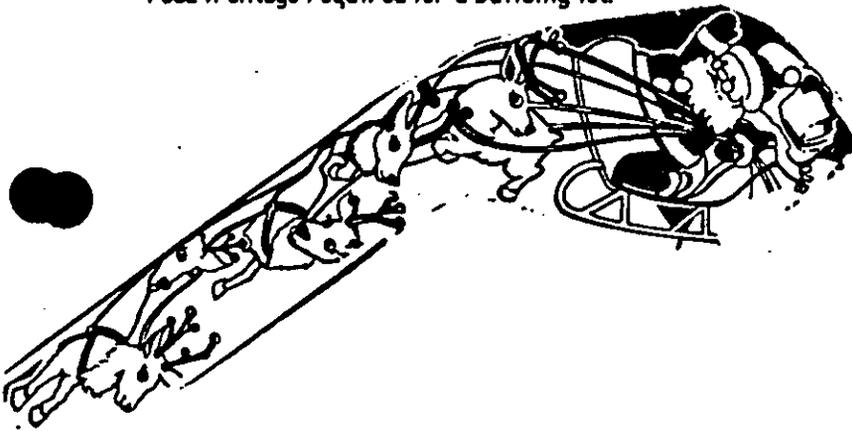

Supervisor Bolton said \$2,000 has already been appropriated to hire the Brown River Bindery. This company will work to halt the deterioration of the Hague town records.

At our next meeting a representation of Clough, Harbor and Associates will present recommendations that could make it less costly to close our landfill. It is also possible that these recommendations may help us keep our landfill open until the burn site is ready for use.

Special committee on cross country ski trails states that the trails will remain the same and will provide access for fishermen.

The Revision Committee will be ready to present its changes to APA and the Warren County Planning Board as soon as fencing questions are answered.

Regular committees presented the following: Highway - our new sander will be delivered by the end of the year; the School Tax Committee informs us that the Attorney General's office cannot challenge another state department, therefore, Hague can get no help from them.

Town Board (Cont. from p. 3)

The possibility of finding a law firm that stands a chance of winning against a state agency is being investigated. Lastly, a class action suit can be brought against the Department of Equalization and Assessment.

The preliminary site work for our new community centre is almost complete with water and electricity. Next will be bids for preliminary concrete work. A meeting of the committee is set for Monday, Dec. 19 at 7PM. This meeting is open to all and will bring everyone up to date.

Unfinished business includes: a request by Hague to the Ticonderoga Board of Education for a polling place in Hague for school elections.

Resolution passed to post the new landfill hours. Each resident will receive a letter with the new times. They will be:

Jan 1 - Mar 31 -- 12PM-5PM - Open 5 days - Closed Mon & Wed.

April 1 - Sep 10 -- 12PM-5PM - Open 7 days

Sep 11-Oct 31 -- 12PM-5PM - Open 6 days - Closed Wed.

Nov. 1-Dec 31-- 12PM-5PM -- Open 5 days - Closed Mon. and Wed.

For the remainder of this month the landfill will be closed on Thursdays.

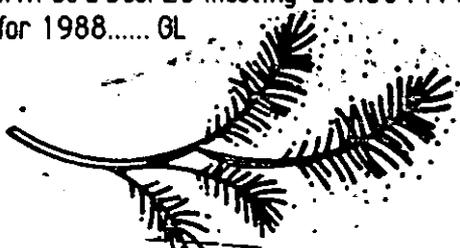

In new business: the office will be closed Dec. 23 through Dec. 26. A proposal for town employees to have ten days off in 1989 was suggested - to be discussed at a future meeting.

At the Association of Towns Legislative meeting to be held soon, the following matters will be reviewed: Solid waste; per capita revenue sharing; municipal ethics act (at the recent Assoc. of Towns meeting in Warren County, a decision was made to oppose this act. When the state mandates something it should provide money); repeal of the Wickes Law. (In spending government grants, union membership must be used); centralized polling places.

A resolution was passed giving up the town's right to water access on The Beachside property. It has been bought by the Addison Corp.

A motion was passed accepting Bill Hogle's bid for a Senior citizen bus to Glens Falls, beginning Jan. 1, 1989.

There will be a Dec. 28 meeting at 6:30 PM to close the books for 1988..... GL

NEW HEART ATTACK DRUG AVAILABLE AT LOCAL HOSPITAL

When a patient in the Ticonderoga area experiences chest, arm, or jaw discomfort that he thinks may be related to coronary disease (i.e. angina or a possible heart attack), it is now very important that they promptly get to the emergency room; they may very well be a candidate for thrombolysis, which is the total dissolving of the clot that has caused the heart attack, and thus the prevention of the damage to the muscle which is the cause of most deaths and later disability from heart attacks.

Streptokinase, which has been approved by the FDA for a few years now for this purpose, has now been approved for use at Moses-Ludington Hospital. Dr. Mike Beehner, Chairman of the Department of Medicine, has arranged a number of in-serviceing the drug's use. Dr. Mark Capeless of the Dept. of Cariology from the Medical Center Hospital of VT and Dr. Arthur Levy from the same institution have given formal conferences.

The drug is only used if the patient arrives within four hours of the onset of the severe chest pain. There are some patients who will not be able to receive the drug, such as those who have had a recent bleeding ulcer, a past stroke, or very recent surgery. The doctors on the medical staff who currently have privileges in caring for acute myocardial infarction will be able to supervise this drug in conjunction with telephone consultation with the cardiologist from either Glens Falls or Burlington. After the clot is initially dissolved with Streptokinase, it is necessary to continue another anticoagulant drug called Heparin, and, in most instances, after a few days of stabilization, the patient is transferred to an institution such as Burlington or Albany for the purpose of coronary catheterization to determine where the blockage is where the clot had lodged. At that time a decision can be made whether a balloon angioplasty (stretching apart breaking up of the narrowed "plaque") or possibly a bypass surgery is necessary to help insure good blood supply to the heart and to help prevent a future heart attack.

In introducing the drug, Dr. Beehner stated: "We are all quite excited about the possibilities that Streptokinase offers for our patients. For many years the emphasis was on giving various drugs to slow the heart, lower the blood pressure, and decrease the work of the heart in order to minimize the damage. Now it is actually possible to dissolve the clot and prevent the damage in the first place which cripples so many patients for the rest of their life and kills a great many also. We are confident that using the strict guidelines that we have that we will be able to help a great many heart attack victims in the Ticonderoga area in a way that we have never been able to offer in the past.

AT CHRISTMAS, FAMILY HAS TWICE THE TRADITION

That is the headline in a special supplement to the Thanksgiving edition of the Glens Falls Post Star written by Ginger Kuenzel, daughter of Dottie and the late Jack Henry. She "grew up" in Hague during several of her school years and has been a perennial summer resident all her life. While backpacking through Europe after college and a short career in Washington, D.C., she met, then married a young German, Andreas Kuenzel, and now lives with her family including two sons, Stefan and Toby, in a Munich suburb.

It is about the double tradition of Christmas that Ginger writes. For those Hague Chronicle readers who do not see the Post Star we excerpt several passages from this sprightly and informative essay:

"Our two boys, having been raised in Germany by a very American mother (especially where tradition is concerned) and a German father, have had the opportunity to observe first-hand the traditions of both countries." (Near the end of November they ask which way they will celebrate this year and they usually take a vote.)

...solemn is the word that comes to most German minds when asked about the Christmas season. Christmas is not a time for bright colored lights and songs about mommy kissing Santa Claus. It is a time for candles and traditional Christmas music...The biggest exception to this rule occurs on Dec. 6, St. Nikolaus Day...on this day Nikolaus appears with sack of apples, nuts, tangerines and other treats for all the good little boys and girls.

.... "During the Christmas season, Christkindmarkts (Christmas markets) can be found in all the larger towns and cities throughout the German region of Bavaria. The numerous stands at these markets offer Christmas decorations and ornaments of every size, shape and material in addition to gift items and toys. Since the markets are always out of doors, the stands selling steaming red wine or children's punch, hot sugar-coated almonds, Lekuchen spice cookies and warm sausages are always a welcome oasis during a cold December shopping spree.

...."Christmas day here in Germany is actually celebrated on Christmas Eve. That is when the tree is brought inside and decorated and presents are exchanged. The children are sent to the kitchen or to their rooms for several hours during the afternoon to wait for the Christkind, or Christ Child. During that time, the father brings the tree inside, decorates it and places all the presents underneath.

...."Most families still use real candles on the tree. Although the atmosphere created by a tree full of burning candles on a late December afternoon is something everyone should experience at least once, that once was enough for me. My nerves have now forced me to return to the traditional American string of electric lights that can be left on even when one goes out of the room for a few minutes.

...When the candles are all burning, the Christkind rings a small bell and then disappears. This is the signal for the children to come into the room. For them, the tree as well as the presents are all brought by the Christkind.

Ginger concludes her essay by stating that "after all, tradition is no more than what has always been done. And what has been done in our family ever since we've lived here is to talk about and try to appreciate the heritage and sentiments of both cultures.

...."So when the discussion starts again this year whether to celebrate Christmas in the American or the German way, the answer will be clear. Christmas is within us and we'll celebrate it in the only way we know how—with all the feelings and memories we've stored up from Christmases past."

ASSEMBLYMAN KELLIHER REPORTS

"On Sept. 13, I stood on the shores of Lake George and called on the Lake George Park Commission to immediately declare a moratorium on all new commercial construction within the lake's basin. On Nov. 8, the Park Commission voted unanimously to declare such a moratorium for a period of one year, or until their new sewage and surface run-off regulations are in place. I applaud the Park Commission, local officials and concerned area residents who recognized the tremendous need for the moratorium and acted promptly and decisively.

...For years now we have known the lady is sick. Without this moratorium and the new regulations, she will become terminally ill within a very short time. Had we continued on our former course experts gave her less than 10 years.

"Some consideration had recently been given to imposing a moratorium only around the shoreline area of the lake. Such an idea is environmentally worthless. You don't have to be an environmental engineer to realize that whatever happens anywhere in the basin, drains into the lake. Just stand on the shore and imagine large developments scarring the hillsides. That's what a shoreline moratorium would do. It would create a huge demand for development a little further back from the lake.

...I want to thank the tremendous number of folks who supported my call for an immediate basin-wide moratorium. By going through the traditional regulatory process, we would have allowed developers to get their permits in plenty of time to have made a moratorium useless. The fact is that more building permits had been issued recently than ever before.

"Our idea of saving Lake George cannot be to declare a moratorium, then turn our backs on the serious problems that remain. If that were the case, then I'm afraid we'd have to start lining up now to kiss that beautiful lake goodbye.

"We must continue our efforts to build a sewer system in the southern basin and to put a halt to sewage leaking from old and faulty septic systems. We need legislation to force the state to live by the new regulations and to put a stop to run-off from the Northway, the construction at the Million Dollar Beach, the repaving of Canada St. in the Village of Lake George and other state projects.

"Rest assured that I will continue to work with the Park Commission, local officials and concerned residents to restore Lake George to its well-deserved honor as the Queen of American lakes."

W WERRY MERRY CHRISTMAS TO ALL.

MANY THANKS FOR YOUR SUPPORT DURING THE PAST YEAR.

HAGUE MEMORY TREE

The Christmas tree in the Town Hall is aglow with lights, which have been lit in memory of those who are no longer with us. As of December 12 the following have been remembered:

Jamie Achey, Merle Anderson, William Andrus, Andrew Barnaby Sr., Meirida Barnaby, Betty H. Barrett, Tom Beadnell, James Belden, Esther Belden, Maud Belden, Tobin Belknap, M. C. Beste, Steven Bevins, Pauline Bolton, R.J. Bolton, Mame Bolton, George Boyd, Jody Braisted, James Braisted, Helen Braisted, Bruce W. Carney, Lillian K. Carney, Harold Carpenter, Zella Carpenter, George Carter, Roland Carter, Ruth Carter, Mary Castaglio, Morgan Chester, Joanne Cole, John M. Costello, Lucille Costello, "Bozo" Costello, Irene Coveney, Edward H. Crabbs, Elisabeth Craig, Ralph Craig, Frank Crossman, Frances Crossman, Harry DeBuys, Emerson Decker, Mary J. Decker, Gene Denno, Marion Denno, Ginger Denno, Leslie Denno, Joe Denno, Archie Denno, Sr., Sarah Denno, Edward Dunklee, Mabel Dunklee, Dayton Dunklee, Westill Densmore, Louise Densmore, Sam Eannace, Mildred Eddy, Robert G. Field, Fred Fish, Helena Fish, Myra L. Fish, Irving Fitzgerald, Charlie Foote, Mary Foote, Dorothy K. Foote, Mary Frasier, Betty Frasier, Fred Frasier, Samuel R. Frasier, Richard S. Frasier, Alice Frasier, Lee Frasier, Veril Frasier, Dale Frasier, Vernie Frasier, Donald Frasier, Donna Lyn Frasier, Audie A. Frasier, Stanley Frasier, Theresa M. Gautreau, Thomas Girard, Samuel Gordon, Bethany Granwhr, John T. Henry, Helen E. Hudak, Gerald Hutchinson, Adelaide Igoe, Frank Igoe, Ethel Jackson, Wilbur Jordon, Gloria Karmazin, Robert Keegan, Ruth Kiligas, Cyrus LaPointe, Marge Laundree, Henry Leach, Sr., Myrtle Leach, Richard M. Leonard, Otto Lunstras, Gino Maranghi, Ada May, Harry May, Frank May, Nellie May, Bill May, Laura May, George May, Mabel Den May, Gordon May, Elaine McKee, Robert S. Meade, Ludolf J. Magow, Avedis Miranian, Betty Monroe, Eva Monroe, Byron Monroe, Ada L. Ostrander, Nelson Patchett, Mary Peria, Charles Peria, Anna Peria, Kingsley Peria, Gertrude Persons, Claude C. Peters, Mary E. Peters, Kenny Porter, Ruth Rand, Reginald Rand, Thelma Rand, Harry Rand, Frank Rives, Mildred B. Ross, Julia B. Ross, Wilford C. Ross, Gerard Santaniello, George Savage, James Schaeffer, Alice Scheuerma, William Scheuerma, Scott Scuderi, Marion Shattuck, Forrest Shattuck, Frederick Spreeman, Marshall Stark, Robert Q. Stockholm, Bill Sullivan, Fluella Sullivan, Clarence Swinyer, Doll L. Swinyer, J. R. Sullivan, Jack Tinker, Delores Ward, Sharon Waters, Alice Watts, Ethel M. Watts, Burton West, Bessie West, Val H. Wilson, Lillian Yaw.

There is no greater gift than to give of yourself. That's what the true spirit of Christmas is all about.

WILLY C'S NOV/DEC WEATHER NOTES

As we closed out last month's weather episode we were preparing for thunderstorms and continued rapid weather changes. The weather changes came, but no thunderstorms. November settled down to being November. More cloudy days, but punctuated with bright brilliant days to remind us all that the sun had not forsaken us. Temperatures declined through the month. Our daytime highs never exceeded last month's report, however we did manage to push into new frontiers as far as nighttime lows were concerned. Our Oct. Mt. Top low for the month was 10° on the 25th, lakeside 25° was the low for that reporting station. Winds did not exceed the Nov. 1 reading of 44 1/2 MPH. On one of those bright brilliant days with the air temperature at 35°, your weather observer was startled to look out and spot a water skier in only a partial wet suit having a fine old time in some quiet water he had found. He persisted for what I thought to be an admirable length of time. His skill level was obviously high yet he persisted in challenging his limit which often immersed him in the relatively warmer waters of the lake. Perhaps that is why he kept challenging his skiing limits. In any event, it was an interesting performance. Rainfall for the month totaled 4.655 inches, which brought the lake back up to a more respectable level for this time of year, particularly if you are concerned about water intake pipes. Prior to that the lake level had gotten down to Jan/Feb levels. Finally, in Nov. we lost another 54 minutes of daylight for the month.

And so December has arrived. No snow of any consequence. Just colder temperatures make up the weather news. Our Mt. Top observatory is again kept fully occupied with our weather action. A nice even zero degrees on the 5th and a -2° today, Dec. 10th with 11 lakeside, the low so far this year. We have had some cold nights this month and with what is forecast for the next few days, coupled with no snow we should be driving the frost well into the ground. At 11:15AM today, the water temperature at the two foot level is 45, the air temperature 12°. A 15-20 MPH breeze from the north northeast is rolling up great clouds of water vapor which cling as hoarfrost to every needle and twig as these particles of vapor come ashore at any downwind site. Today and the next few days should see great losses in thermal heat from

Weather Notes (Cont. from page 6)

the lake. The days are nearing their minimum daylight hours. Sunsets have already reached their earliest times and will be rebounding starting the 16th. Sunrises don't arrive at their latest hour until the 29th and then do not rebound until Jan. 9th, when we will be once again gaining on both ends of the day.

Finally we come to the end of another year. Yes, a mature great Bald Eagle has been spotted and we hope he remains, as in years past, until the lake freezes over. We hope he will again journey safely to his winter home, so the process may repeat itself. What a marvelous omen of hope he is. To you and all your loved ones, we wish you a joyous holiday season and a new year filled with good health and the realization of all your most cherished dreams.

SOUNDINGS

BORN - A girl, Sarah Louise, to Lisa (Leonard) and Richard Timm on October 3 in Rochester, MN. Proud grandmother is Mrs. Richard Leonard, Friends Point.

BORN - A boy, James Hudson, to Martha and Mark Smith on October 13 in Lake Wales, FL. Proud grandparents are Ann and Henry Gells, Terrace Road, Silver Bay.

MARRIED - Bruce E. McKeeman, son of Mr. & Mrs. Keith McKeeman, Tucson, AZ, formerly of Silver Bay, to Judy Stannep on September 4, 1988 in San Clemente, CA.

DIED - Robert L. Wotton, Hague and Burlington, VT, on November 14 in Burlington. He is survived by his wife, Harriet, Burlington, a son, Robert D., Hague and Seminole, FL, four granddaughters and two great grandsons.

DIED - Delores Ward, 56, Rt. 9, Hague, on November 15 at Moses Ludington Hospital. She is survived by her father, her husband, James N. Ward, Hague, three daughters, two stepsons, two stepdaughters, a brother and a sister and 13 grandchildren.

WILLIAM H. DeGRAFF, son of Mr. & Mrs. Ervin DeGraff, Hague, has been named vice president, publishing, for Atlantic Cable Television Publishing

TICONDEROGA H.S. HONOR ROLL - 2ND MARKING PERIOD

The following students from Hague have been listed on the 2nd Marking Period Honor Roll:

1st Honors: Tony DeFranco, Carolyn Dykstra, Tieah Gautreau, Jason Pless

2nd Honors: Peter Belden, Richard Cobb, Kimberly Porter.

CHILDREN'S ARTWORK

An exhibit featuring the drawings of fifth graders from Ticonderoga Elementary School will be held by the Lake George Court House, Canada St. in Lake George Village. This art show will run from November 1 to January 15. The theme is "Our Storybook Friends."

The featured students' work is highly individualized conceptions of the still life. Just as no children are the same no two artworks are identical. This is an insightful show which reveals personality differences and shows the vast amounts of active knowledge stored in the minds of children. Their drawings are beautifully executed and reveal the world of the child and all its complexity.

In Art the child is provided the opportunity for the release of emotion and the opportunity to use their emotions constructively. It is a great show. Be sure to see it.

DID YOU KNOW?

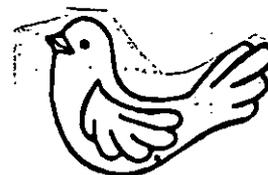

" Napoleon appointed a Madame Blanchard as his Chief Air Minister of ballooning in 1804." Nancy Tier of Silver Bay sent us an interesting bit on the International Women's Air and Space Museum. Nancy, as is well known to all Silver Bay, pilots her own plane.

The museum opened in March 1986 in Centerville, a suburb of Dayton, Ohio.

Another little known fact - the Wright Brothers' sister, although not a pilot herself, encouraged and supported her brothers. There is a special Katherine Wright exhibit at the museum.

Sally Ride was the first American woman to fly in space. Her flight is documented at the museum in Centerville.

Anyone in that part of Ohio could visit at 26 North Main St. Free admission. Public hours Saturday 10AM-4PM. Tours by request.

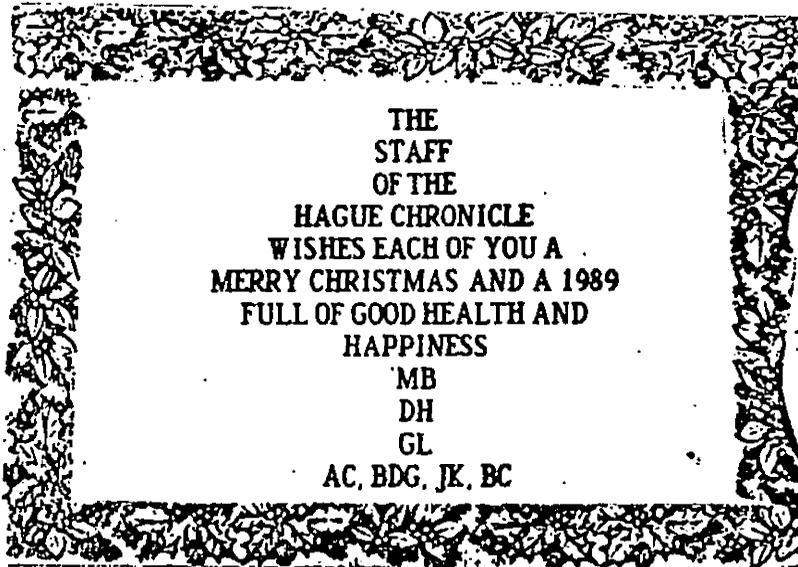

CALENDAR OF EVENTS - DECEMBER 1988/JANUARY 1989

DECEMBER

- 20 Home Bureau Christmas party - 11:30AM
- 20 Fish and Game Club - 7:30PM
- 20 Board of Education Meeting - THS - 7:30PM
- 22 No ZBA meeting. Held on the 15th.
- 23 thru 26 - Christmas vacation - Offices closed
- 24 and 25 - LANDFILL CLOSED. Will be open on 23rd
- 25 A VERY MERRY CHRISTMAS TO ALL
- 28 Town Board - end of year meeting

JANUARY

- 1 HAPPY NEW YEAR
- 2 Fire Department meeting - 7:30PM
- 4 American Legion meeting - 7:30PM
- 4 Chamber of Commerce meeting - 7:30PM-Tn. Hall
- 5 Senior Citizens bus to Glens Falls - 8:30AM
- 5 Planning Board meeting - 7:30PM
- 10 Town Board meeting - 6:30PM
- 24 Senior Citizens meeting - Covered dish lunch
