[Info@TeamKelsey.ca](mailto:Info@TeamKelsey.ca)

## Results - June 2011

Once Kelsey had completed treatment the results of MRI scans were very promising and we thought that she may beat this horrible disease.

Our feelings of optimism were short lived as the tumour returned in August 2011 and Kelsey

## Treatment - Sept 2010/June 2011

31 daily radiation treatments to brain and spine followed by 6 months of aggressive chemotherapy treatments...many blood and platelet transfusions...over 600 needle pokes to her body

Fight

had to face more aggressive radiation treatments.

Results of CyberKnife radiation treatment was a big success and Kelsey returned to grade 8 where she was elected student council president!

But unfortunately the tumour returned in Oct 2011 and no further treatment was possible. Before Kelsey became an angel on December 13, 2011 she created Team Kelsey to raise awareness and fundraise for children affected by childhood cancer.

## Team Kelsey's Legacy

Team Kelsey carries on Kelsey's wish which is simply to help other children affected by childhood cancer. In just 2 years, Team Kelsey has raised \$90,000 for the Ronald McDonald House Hamilton; McMaster University Stem Cell & Cancer Research Institute and for other children affected by cancer.
