**The Scotties (and other pet companions) in the household**

Winston is our only pet. We got him in May 2021 a few months after our 15 year old Wheaton male, Dorsey died.

**Information about Winston:**

Winston is a 3 year old neutered Wheaton male. His registered name is White Waggish Theodore of Moonrise, and he was imported from Hungary when he was 6 months old. A Scottie breeder in Georgia imported Winston to introduce European genes into their kennel and he worked himself out of a job over the next 2+ years. The breeders kept a female from each of 3 litters he sired for their breeding program, and he was fighting with their other male, so Winston couldn't stay. We were thrilled to get him, and he has been perfect for us.

Winston has a wonderful personality and thinks he is in charge of everything. He enjoys being outdoors on our lanai and riding in the car and is a great companion.

**Do you breed Scotties?**

No

**Do you show Scotties in conformation events?**

No

**Do you show Scotties in other dog performance sports (i.e.- obedience, agility, barn hunt, etc.)?**

No

**What else would you like us to know about you and your Scotties?**

When Rick was growing up his family dog was a Scottie female named Blackout. While he was in college, his mom had a male named Watson. We waited until our children were older before we bought Dorsey as a puppy and found we were partial to Wheaton's.

### Groomer recommendation.

We have used Leland, the groomer at Happy Pets Inn on SR 60 just east of Valrico for 15 years. Our Scotties are not show dogs so they get clipped on top and Leland always does a good job and will make sure you are happy with the results. We also board with Happy Pets if we cannot take our dog on a trip. Their phone number is 813-737-3777.
