

FOCAL

consulting

process expertise

Focal Consulting, LLC's clients typically excel in their fields, but need help in the central office. That's where Focal comes in.

Focal's custom suite of services will improve procedures and training, increase efficiency, streamline accounting, and utilize software solutions to their maximum advantage.

Clients can select the option that best fits their needs, or opt for a comprehensive evaluation and recommendation by our team.

CUSTOM SOFTWARE SOLUTIONS

From software that does some of what you want, to software that does exactly what you want

Fewer Frustrations

Focal Consulting's background in software development enables us to create custom software solutions to fill in the gaps of off-the-shelf packages. These special software projects are tailored to individual business needs and developed in consultation with management and end-users. Our solutions can streamline onerous processes and help keep employees focused and efficient.

Custom Projects, Valuable Solutions

- Time management solutions
- Outsourced payroll integration
- Work order tickets and rental customized applications
- Third-party integration of any operational tools
