Dear Mr. Haschen:

The Memphis Division, Federal Bureau of Investigation (FBI), would like to thank you for your participation in the Stewart Creek damming and search operation. The damming and searching of the creek was an unprecedented operation for the FBI. Because of your hard work and commitment to getting the job done, the FBI, along with its law enforcement partners, was able to complete this extremely difficult task.

In April 2006, Analyce Guerra, a two year old toddler, was discovered missing from her Smyrna, Tennessee, residence. Since that time, the FBI, Tennessee Bureau of Investigation, and the Smyrna Police Department have worked tirelessly to locate Analyce. One of the most challenging leads in this investigation was the searching of Stewart Creek. With your assistance, the lead was eliminated in the investigation.

Again, the Memphis Division and I would like to thank you for your tireless service and dedication. The Memphis Division remains vigilant in the continued efforts of this matter and will continue to investigate every lead.

Sincerely,

*My Harrison*
