This heavy-duty aluminum tripod accommodates 5/8 x 11 instruments. It has telescoping legs, allowing for setup at various heights. This tripod is ideal for mounting lasers and auto levels.

	ITEM#	DESCRIPTION
A.	0261	HD Aluminum Tripod

This dual clamp heavy duty all aluminum tripod has extra-long shoes with large spurs for greater anchoring power, and hardened steel, replaceable tripod shoe tips. Also, it has convenient dual screw-style leg and quick release clamp assembly for faster setup times.

	ITEM#	DESCRIPTION
B.	2840	Dual Clamp Aluminum Tripod

This all-fiberglass heavy-duty tripod features proven tripod design concepts. It's totally waterproof, so longer term setups in adverse weather conditions is not a problem. This tripod employs dual clamps for fast, stable setups. The quick clamps are made of metal with plated friction washers which also contribute to a fast setup.

	ITEM#	DESCRIPTION
C.	0265	Dual Clamp Fiberglass Tripod

The Tri-Max® by Crain is without a doubt the best instrument tripod on the market today. It's the only surveying-grade tripod with certified accuracy – highly recommended for all servo-driven and robotic total stations and 3-D laser scanners. This tripod easily meets the ISO 12858-2-H standard for the stability of instrument tripods.

	ITEM#	DESCRIPTION
D.	0264	Tri-Max Tripod

The SECO® heavy-duty aluminum tripod has an adjustable center column. The tripod extends to 7.6 ft (2.3 m), with its rack-and-pinion lift system. It features a built-in circular vial in the instrument head, quick clamp legs, and black hardware. Safety chains on the legs prevent slipping on hard surfaces.

1234	Recon/Nomad Tripod Bracket
1237	Ranger Tripod Bracket

Tribrach Adjuster

Use this tool for checking and adjusting optical plummet tribrachs & tribrach bubbles.

ITEM#	DESCRIPTION
0336	Tribrach Bubble Adjuster

Tripod Stabilizer

This tripod stabilizer provides extra stability on concrete and other hard surfaces. Highly recommended on windy days.

ITEM#	DESCRIPTION
0325	Tripod Stabilizer

Tribrach Adapter

The rotating friction-top adapter allows the prism to be pointed after installation in the tribrach.

ITEM#	DESCRIPTION
0536	Rotating Tribrach Adapter

Tribrachs

This high-quality tribrach features an optical plummet and 2X magnification and a twist focus. Its reticule is composed of two small concentric circles. With a sighting distance of 0.3 m to 15 m, the tribrach has an accuracy of 0.5 mm per 1.5 m. It also has a locking forced-centering knob, a 5/8 x 11 base and an 8-minute circular vial.
