CitraGard™

Citrus Safe Plastic

AIN Plastics and industry leader Quadrant EPP have teamed up to develop the newest in wear materials for difficult environments. CitraGard citrus safe plastic is a Tivar UV unblend sheet specially engineered for safe use with acidic fruits and vegetables.

CitraGard citrus safe plastic is only available from the plastics experts at AIN Plastics.

CitraGard citrus safe plastic has these important advantages:

- Lower surface degradation than standard Virgin UHMW-PE.
- Contains the most effective UV stabilizers available to offer increased performance in direct sunlight.
- The special color of the product contains inorganic compounds that reflect harmful UV rays.
- Minimal thermal expansion and improved load-bearing over typical Polyethylene.
- Contains acid neutralizers to prevent damaging oxidation.

Applications include:

- Hoppers and chutes
- Conveyors
- Liners
- Outdoor sorting belts
- Packaging lines
- Wear strips and pads
- Any application where citric acid is an issue
