

Madison Bead Society November Meeting

When: Monday, November 23rd, 6:30 p.m.

Where: Coventry Village, 7707 N. Brookline Dr., Brookline Building, Art Studio
(Brookline Building is the high rise apartment building located on High Point Road next to the Bishop O'Connor Center. There is a Google map on their website.)

<https://www.fivestarseniorliving.com/communities/wi/madison/coventry-village>

Topic: Quick Holiday Jewelry

Fee: There is a fee for some materials, see specific projects below

At the October meeting we picked 3 projects to do in a make-and-take arrangement. After introductions and a little bit of business, we'll break into smaller groups and rotate through the projects. OR we'll work on them one at a time; depends on how many people attend the meeting.

Below are pictures and materials needed for each project.

Bracelet

Materials (pictured): toggle of your choice, bead stringing wire and crimps, 4 mm fire polish beads, half Czech Mates

[Alternatives: half Tila or regular Tila beads and 3mm fire polish beads; regular Czech Mates beads and 4 or 6mm fire polish beads]

Fee: undetermined at this time but there will be materials available at the meeting

Tree or Star Pin or Pendant (no picture of the star shape but the idea is the same)

Fee: \$5.00 for 2 pointed wires plus instruction sheet

Materials: Beads for tree (size 11 through 6)

Christmas Tree Spiral Earrings

Materials: Artistic Wire (18 gauge), round seed beads (size 6 or larger), spiral maker (if you have one), nylon jaw pliers, nylon tipped hammer (if you have one), round nose pliers, wire cutter, ear wires

Consider silver, gold, and red colored wire for a different look.
