

Survey Crew Chief - Edmonton

Scheffer Andrew Ltd. is currently seeking a Survey Crew Chief to join our team for a seasonal position with a possibility for a full time.

Scheffer Andrew Ltd. is a medium sized engineering and planning consulting firm, which has operated in Western Canada, primarily Alberta, for more than forty years. We currently have three offices in Alberta with more than 30 employees. Our work focuses on municipal, land development and transportation engineering.

Duties of this position will include, and are not limited to:

- Performing topographical surveys, subdivision construction layout, and other Geomatic work
- Field experience should include traditional survey equipment (i.e., level and chain), total station, GPS systems (including data collector usage), subdivision survey and construction layout calculations as well as volume calculations

The ideal candidate will have:

- 2 to 5 years' experience in the field inspection of Municipal Engineering and Land Development projects
- Familiarity with sewer, water main and road construction materials, methods and processes
- Ability to interpret construction drawings and specifications
- Computer skills including Word, Excel, Windows, MicroSurvey and CADD applications
- A self-motivated individual looking for advancement opportunities
- A vehicle and a valid driver's license are required for this position
