

# APW Formwork

APW Formwork is a privately owned company with many years experience in the reinforced concrete industry. Based in Bolton, Lancashire we provide a quality service with an emphasis on building relationships with an open and honest approach. We maintain a regular workforce and are able to deliver quality continuously to our clients.

APW Formwork is a competitive company bringing a proactive and positive approach to every job undertaken. Quality and Safety go hand in hand.

Whilst we have a good safety record we also have an eye for quality and ensure that both are monitored closely and the correct materials and plant are used at all times.

## Our Services

Construction of Reinforced concrete structures including formwork steel fixing and concreting. APW Formwork Employees are the key to the success of our projects. It is for this reason that we continually invest in training for all our people.

All of our Site supervisors within our company have the SSSTS training accreditation and our workforce are 100% CSCS accredited.

# Projects We Undertake

APW Formwork generally undertakes projects on a supply and fix of formwork, labour only concrete and reinforcement basis providing all the necessary plant. We provide Formwork and Falsework designs for projects undertaken all of which can be provided at short notice. We can also provide labour on an hourly rate if required.
